Illuminating the Path @ MRG

Message from the Chairman's Desk

Dear Parents, Students and Members of the MRG Community,

Every year that goes by at MRG school is filled with tales of learning, growth and common purpose. This past year has been a meaningful chapter in the life of MRG School — a time of reflection, renewed purpose and shared milestones that brought our community closer and strengthened our collective vision.

I am deeply proud of the way our school continues to flourish — not only as an academic institution, but as a vibrant community bound by values, vision and compassion.

What truly makes MRG special is the sense of togetherness we share — the belief that education isn't just about lessons in a classroom, but about shaping kind, curious and responsible individuals. It's in the sparkle of joy during a school celebration, the resilience shown on the sports field, the excitement of a new idea taking shape and the quiet determination during tough moments. These are the little things that reflect the spirit of MRG every single day.

What I value most, is the culture we continue to build together — one that champions compassion, curiosity and courage. This year, our students actively took part in community outreach and environmental drives, experiencing the joy of giving and the value of connection. From school celebrations to community outreach, every experience was a reminder that when we come together, we create something truly meaningful.

I am also humbled by various recognitions, including being ranked among the Top 50 Schools in Delhi and receiving the Green Award 2025 for the third consecutive year — a reminder of our ongoing commitment to sustainability and excellence.
To our parents — thank you for your continued trust. To our teachers and staff — your commitment inspires us. And to our students — your curiosity, energy and kindness give us hope for a brighter tomorrow.

As we turn the page to a new chapter, may we carry forward the values of integrity, inclusiveness and a deep-rooted desire to make a difference. Let's continue building a school community where every child feels seen, heard is recognized, valued and empowered to thrive.

With Warm Regards and Heartfelt Wishes
Shri Davender Kumar
(Chairman)

Message from the Executive Chairman

Dear Students, Parents and Esteemed Members of the MRG School Community,

It is with immense pride and heartfelt joy that I extend my warmest greetings to you all on the occasion of our annual magazine's publication. This magazine is not just a chronicle of the year gone by, but a vibrant depiction of our collective achievements, aspirations and the indomitable spirit that defines MRG School, family.

Education, to me, is not merely the acquisition of knowledge, but the cultivation of character, resilience and a lifelong passion for learning. At MRG School, we are committed to nurturing well-rounded individuals young minds who are not only academically accomplished but also imbued with the values of integrity, empathy and service to society.

This year, our students have not only excelled academically but have also received prestigious awards for excellence in sports, extracurricular activities and national and international competitions. Their dedication and hard work have brought immense pride to our institution.

Equally commendable are the achievements of our school community at large. Our esteemed Principal and a large number of our dedicated teachers have been honored with numerous awards across a variety of competitions and forums. Their unwavering commitment to excellence and innovation in education continues to inspire and elevate the learning environment for all.

As we look to the future, let us remember that true success lies not just in personal achievement, but in uplifting others and making a positive difference in the world. I urge each one of you to dream big, work hard and remain steadfast in your pursuit of excellence. Let us continue to foster a culture of curiosity, creativity and compassion that will empower our students to shine on every stage of life.

May this magazine inspire you to reflect, celebrate and strive for even greater heights. Together, let us build on our legacy and shape a brighter tomorrow.

With Best Wishes
Major General Dr. Dilawar Singh
(Executive Chairman)

Message from the Director's Desk

Dear MRGians,

While marking another activity-packed academic year, I feel it is a proud moment for me to share the manner in which MRG School has maintained itself as a nurturing ground for academic excellence, innovation and value-based learning.

The Board results for 2024–25 were a true testament to the commitment of our students and faculty, achieving 100% success and impressive individual performances. Beyond academics, our students flourished in a variety of enriching experiences—from the vibrant Crescendo Winter Carnival, to the Annual Inter-School Fest - Confluence, themed Symphony of Solidarity.

This year, we celebrated key milestones that brought our entire school community together. Events like Founder's Day allowed us to honour the dedication and contributions of our teachers, staff and team members who work tirelessly behind the scenes. Our national celebrations, including Independence Day, in the presence of decorated officers, instilled a deep sense of pride and unity among our students, reminding us all of the values that shape our identity.

Our CSR initiatives, including Labour Day, Plantation Drives, and the Toy Donation Campaign with Goonj, reinforced our mission to raise socially conscious and empathetic citizens.

MRG earned several prestigious accolades this year, each one a testament to our collective achievement and unwavering commitment to excellence. We were proudly ranked 7th in North India by the Times School Survey 2024 and recognized as the Best School for Curriculum Design Adaptation by Education Today. Our consistent efforts towards sustainability were acknowledged once again as we received the Green Award 2025 for the third consecutive year. Additionally, Careers 360 awarded us a distinguished AAAA+ rating and we were honoured to be listed among the Top 50 schools in Delhi and the Top 150 in India by Education World. These recognitions reflect the collaborative spirit that define the MRG community.

Our students also shined across interschool competitions, earning distinctions in sports, art, debate, dance, yoga and many more areas — reaffirming our holistic approach to education.

As we move into a new year, our commitment stands strong: to inspire curiosity, nurture character and prepare our learners to thrive in an ever-changing world.

Warm Regards
Mr. Rajjath Goel
(Director)

Message from the Principal's Podium

Dear Students, Parents and Faculty,

It is with immense pride and jubilation that I reflect on another phenomenal academic year at MRG School, where excellence has been the hallmark and distinction, the defining feature. Our stellar Board results, remarkable individual achievements and numerous prestigious accolades are an example to the unwavering commitment, unrelenting passion and unbridled enthusiasm of our students, faculty and staff.

At MRG, we have created a veritable haven of learning, where young minds are nurtured, talents are honed and dreams are ignited. Our students have soared to dizzying heights, blossoming in a kaleidoscope of enriching experiences, including the resplendent 'Crescendo' Winter Carnival and thought-provoking Annual Inter-School Fest- Confluence 2024. These events have been a triumph of creativity, intellect and spirit, showcasing the very best of MRG's academic and extracurricular excellence.

As a community, we have come together to celebrate momentous occasions, such as Founder's Day, Independence Day and Labour Day which have strengthened our bonds, reinforced our values and instilled a deep sense of pride and patriotism. Our CSR initiatives, including Plantation Drives and the Toy Donation Campaign, have been a shining example of MRG's commitment to social responsibility, compassion and community service.

I am thrilled to share that MRG School has been recognized for its outstanding achievements, including being Ranked 7th in North India, Best School for Curriculum Design Adaptation, Green Award 2025, and AAAA+ rating by Careers 360. These accolades are a living legacy to our collective efforts, unwavering commitment and unshakeable faith in MRG's mission and values.

As we embark on a new year, I invite you to join me in celebrating the spirit of excellence, innovation and community that defines MRG School. Together, let us continue to soar to new heights, pushing the boundaries of academic excellence, creativity and social responsibility.

With Warm Regards and Best Wishes
Ms. Anshu Mital
(Principal)

Words of Wisdom

Dear Readers,

Within these pages, you will find inspiring stories of learning, creativity, and the vibrant spirit of MRG. Yet beyond the celebrations and milestones, I wish to share something deeper—reflections on the evolving purpose of education in today's world.

We are living through an era of unprecedented change. The acceleration of technology, the complexities of global events, and shifting social landscapes are transforming how we live and work. In India alone, over 260 million students are enrolled in schools, yet access to truly transformative education—education that builds both intellect and character—remains uneven. In such times, we must ask ourselves: What should education truly prepare our children for?

The answer lies not only in academic excellence, but in moral clarity and inner strength. As the world grapples with conflict, polarization, and an overwhelming pace of change, schools must be sanctuaries that nurture more than clever minds—they must cultivate compassionate hearts, steady hands, and thoughtful voices. At MRG, we believe the most important work we do is not just teaching children what to think, but helping them discover who they are, and what they stand for.

Character education is not an add-on—it is the foundation of deep and enduring learning. Traits such as honesty, empathy, resilience, and responsibility are not simply values we talk about; they are life skills we embed across every interaction. These values shape how students respond to challenges, how they treat others, and how they contribute to the world around them. Research shows that schools with strong character education programs see improved academic performance, reduced behavioral issues, and stronger emotional well-being among students.

India is making progress: the National Education Policy (NEP) 2020 underscores the importance of holistic education—integrating cognitive, emotional, and ethical development. Yet much work remains. Only a fraction of schools nationwide have fully adopted these principles. At MRG, we are proud to be among the few that are striving to align practice with this powerful vision.

Technology, too, is transforming the classroom. From AI-driven learning tools to global virtual exchanges, our students today have access to more knowledge than ever before. But in this age of abundance, discernment is key. It is not enough to teach children how to use digital tools—we must also teach them when, why, and with what intention. Are they using technology to grow, to connect meaningfully, and to reflect? Are they grounded in their humanity even as they reach for the future?

Above all, we must teach unity. In a world that often feels fragmented, schools must be places where children learn to listen deeply, appreciate diverse perspectives, and collaborate with purpose. At MRG, we see education as a social contract—an opportunity to raise not only future professionals, but future citizens who understand that true leadership begins with empathy and integrity.

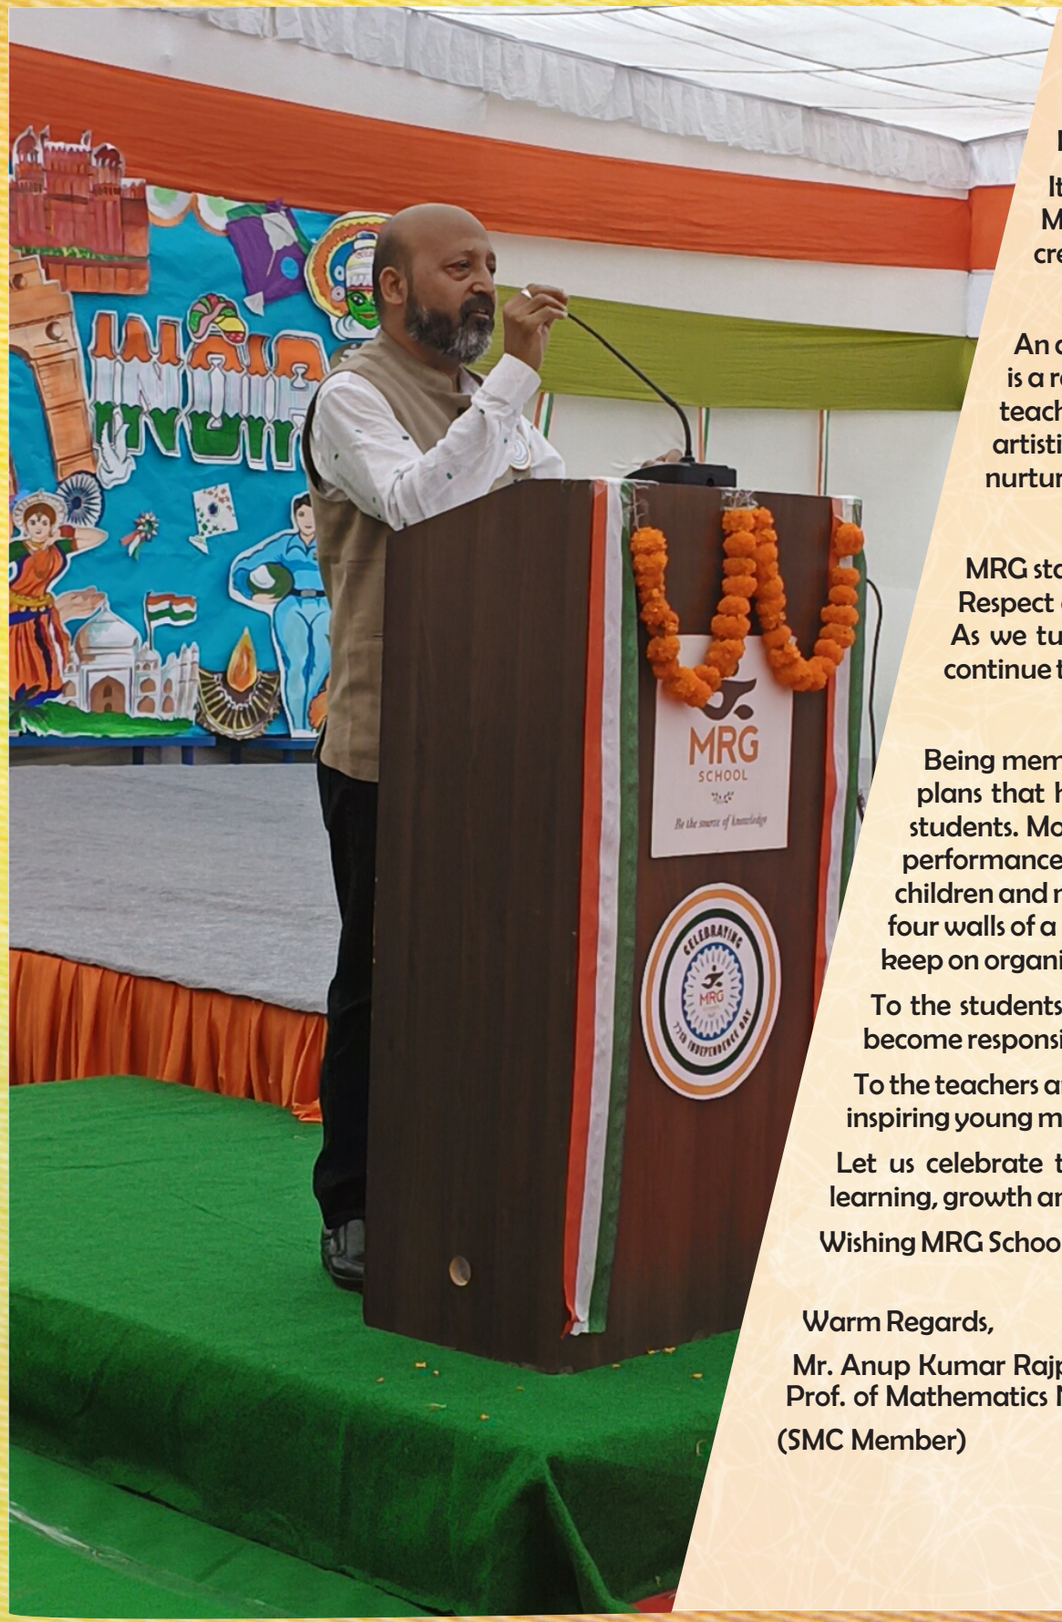

Education today must reach both the mind and the heart. It must prepare children not only for individual success, but for meaningful contribution—to their families, their communities, and to a world in urgent need of wise, kind, and courageous individuals.

Let this message serve as a gentle reminder of what truly matters. When we nurture values and character alongside academic excellence, we don't just prepare our students to thrive—we equip them to lead lives of purpose and make a difference where it counts most.

Warm Regards,

Mr. Vijay Shukla

(SMC Member)

Words of Wisdom

Dear Readers,

It gives me immense pleasure to contribute a message to the Annual Magazine of MRG School — a platform that beautifully captures the spirit, creativity and accomplishments of our vibrant school community.

An annual magazine is more than just pages filled with words and pictures; it is a reflection of dreams, dedication and the dynamic journey of students and teachers throughout the year. It highlights the academic achievements, artistic expressions and co-curricular triumphs that make MRG School a nurturing ground for holistic development.

MRG stands tall not just as an institution of learning, but as a symbol of Morality, Respect and Gratitude — values that shape the minds and hearts of its students. As we turn the pages of this magazine, we are reminded of how these values continue to guide our path toward excellence and empathy.

Being member of the School Management Committee I witness many reforms and plans that have been discussed and finalised in the welfare of the school and the students. Most of them has started giving its fruits and being seen in excellent school performance in all arena viz. academics, sports, physical and mental development of children and nurturing of talent among teachers. A creative mind is not only shaped in four walls of a classroom but also blossoms in various school events, that the MRG school keep on organising.

To the students: may you continue to strive for knowledge, uphold strong values and become responsible citizens of tomorrow.

To the teachers and staff: your dedication is the backbone of this institution. Thank you for inspiring young minds every day.

Let us celebrate the legacy of MRG School and look forward to many more years of learning, growth and unity.

Wishing MRG School continued success in its noble mission of education.

Warm Regards,

Mr. Anup Kumar Rajput
Prof. of Mathematics NCERT, New Delhi
(SMC Member)

SPORTS ACHIEVEMENTS

Charvi Mehta (XI) (I Position– U17 Girls), Kaitlynn Rana(VIII) (III Position – U14 Girls), and Parth Mehta(V) (II Position – U12 Boys) brought laurels to school with their remarkable achievements in shooting at ASN Tournament.

Our boys' basketball team powered through fierce competition and bagged an impressive Third Position at the Inter-School Tournament held at St. Angel School.

Shravya of Grade II emerged victorious, claiming the coveted Delhi State Title in the Under-9 Badminton Category, organised by DCBA (Delhi Capital Badminton Association).

Livanshi Singh of Grade IX has soared to remarkable heights, clinching the coveted Gold Medal at the Delhi State School Games (DOE).

Our enthusiastic skaters clinched multiple positions with stellar performances at the Inter School Skating Championship, celebrating the spirit of Skate for Viksit Bharat.

Our outstanding yoga performers amazed everyone and claimed the First Position at the mesmerizing Yoga Event hosted by D.A.V Pushpanjali.

Our students showcased incredible skill and spirit, securing remarkable achievements and multiple positions at the Open Delhi State Taekwondo Championship, held at Kant Darshan Public School by the Central District Taekwondo Association.

Shravya of Grade II has achieved III Position by showcasing her remarkable dedication and talent in the Delhi State Badminton Championship, held at Thyagaraj Sports Complex.

Shravya of Grade II demonstrated stellar wins - I Position in Under-9 and III Position in Under-11 Girls Singles at the SSRC Shutlers Championship organized by Bosco Public School.

Charvi Mehta of Grade XI has achieved a remarkable feat by winning Gold at the prestigious 26th India Kumar Surendra Singh Interschool Championship, demonstrating her unwavering determination.

Uday Chawla and Manmay Mehta, our exceptionally talented cricketers from Grade XI, have been selected to represent the school at the Delhi State School Games (DOE) in the Under-17 Boys' Cricket category

Shravya's dedication paid off with a Third Position finish at the RC Shutterler Open Badminton Championship at MCL Saraswati Bal Mandir.

Our cricket team battled fiercely and emerged victorious, clinching the prestigious First Position at the U-19 Cricket Zonal Competition.

Áshit Bansal of Grade VI Clinches the Bronze Medal at the Roll Ball Delhi State Championship 2024, held at Delhi Heritage Public School.

Our budding cricketer, Uday Chawla has set the pitch ablaze! Scoring a dazzling 88 runs in just 39 balls, including 10 fours and 7 sixes, he's not just a player, he's a rising star in the making.

Making a Mark Beyond School

Vaishnavi Goyal Secured III Zonal rank in MCL Mental Math World Cup 2024 & First Rank in Level 1 of SOF International Mathematics Olympiad.

Aayansh Jain of Class VIII and Vedant Goyal of Class X have showcased exceptional brilliance by securing positions among the Top 100 students in the Delhi West Region in the Aryabhatta Ganit Challenge 2024. Their passion for mathematics and dedication to excellence truly shine through!

Aarav Aggarwal of Grade V secured First Position in the National Level Abacus Championship, showcasing exceptional speed, accuracy and mental agility!

Literary Milestones

Sanvi Kapoor (Grade IX) has Published her Debut Book, Eclips of Emotions, with Book Leaf Publishing - An Inspiring Milestone of Creativity, Passion and Powerful Self- Expression!

Riddhi Garg of Grade II has made a remarkable literary debut with her book “A Tale of Love, Loss and Enduring Bonds.” Her creativity and passion for storytelling inspire young minds to dream big and write bold!

Inter-School

Vriddhi Aggarwal (Grade I) added color to competition, winning 3rd position in the Painting Competition held at Columbia Foundation Sr. Sec. School.

With creativity stitched into every thread, Mahi Maggo (Grade II) claimed II position in the Eco Hero Costume Contest at Maharaja Agrasen Public School, Ashok Vihar.

Shanvi Agrawal and Shravya Vijayran (Grade II) displayed agility and determination, bagging 3rd place in the Roller Skating Championship at Himalaya Public School.

Abha Verma, Abhay Kumar & Sabar Shokeen (Grade XII) showcased sharp thinking and eloquence, securing II position in the Dr. V.K. Bhatnagar Moot Court Competition at Manavsthali School.

Asiya Karim (Grade XI) earned 2nd place for her mesmerizing design in the Mandala Art Competition at Columbia Foundation.

Asmi Gupta, Avani Dogra, Chahek Dalmia and Kanishka Shokeen painted powerful messages at Graffiti for Global Goals, winning 1st place at Maharaja Agrasen Public School.

Mansha (Grade X) captured hearts and applause, securing III position in the Music Event (Murli Ki Dhun) at DAV Sector-7. A tune that left a lasting impression!

Achievements

Sara Mittal (Grade VI) stood out with her creative flair, achieving II position in the Art Event – Roots of Creativity hosted by Vidya Bharati Public School.

Pankti (Grade VIII) showcased skill and patience in the Origami Flower Folding Competition, securing III position at M.M. Public School.

Sara Mittal (Grade VI) earned II position in the Painting Competition at M.M. Public School — proving that creativity blooms in every medium!

Ipshita & Kavisha (Grade VII) transformed walls into visual poetry, winning 2nd place in the Graffiti Wall Competition at M.M. Public School.

The AI Avengers from MRG School showcased their innovation and determination, securing the 2nd Runner Up position at the East Delhi Zonal IRIC – Middle Level.

The dynamic AI Squad from MRG School dazzled at the East Delhi Zonal IRIC – Junior Level, proudly taking home the 2nd Runner Up title.

Inter-School

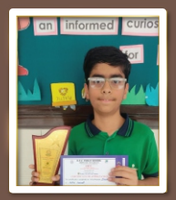

Our young skaters showcased exceptional agility and control at the Inter-School Skating Competition hosted by Kamal Public School, Vikaspuri, earning well-deserved recognition for their impressive performance.

Exhibiting strength, discipline, and sharp technique, our students delivered a powerful performance at the Inter-School Taekwondo Championship held at Delhi International School, Dwarka, securing top honours for the school.

success stories @ MRCs

MRG CORE VALUES & HOUSE SYSTEM

Courage

Courage House stands as a beacon of resilience, built upon the bedrock of its core values: bravery and perseverance. Courage House fosters a supportive environment where courage isn't just celebrated but cultivated, empowering students to stand up for what's right, uphold moral principles and persevere in the faces of obstacles.

Empathy

Empathy House at our school is a nurturing space founded on the principles of compassion, understanding, connection and acceptance. It serves as a hub where students cultivate empathy by fostering meaningful relationships, actively listening to one another and embracing diversity. It's a place where everyone feels valued, understood and accepted for who they are.

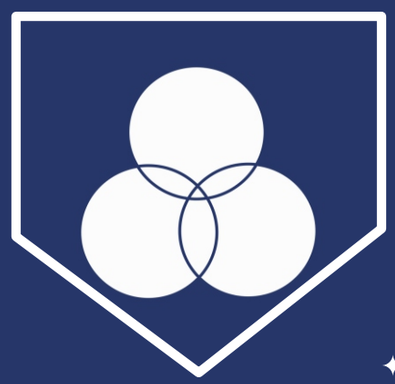

Excellence

Excellence House at our school is a dynamic community driven by the core values of achievement, innovation, leadership and growth. It serves as a platform for students to strive for their personal best, pushing boundaries and surpassing expectations in academics, sports and extracurricular activities.

Integrity

Integrity House at our school is a cornerstone of moral character and ethical conduct, anchored by the values of honesty, responsibility, respect and trustworthiness. It serves as a bastion of integrity, where students uphold high ethical standards in all aspects of their lives. It's a place where students are guided to make principled decisions and contribute positively to the school community.

Excellence House Reigns Supreme!

**With hearts full of passion and a spirit that never quit,
Excellence House claimed the House Trophy 2024–25!**

Community Care @ MRG

Where Compassion Meets Action

PLANTATION DRIVE

On ‘World Environment Day’, MRG School hosted a vibrant ‘Plant for Oxygen’ initiative, uniting students and parents in a shared mission for a greener tomorrow. With each sapling planted, they sowed seeds of hope, awareness and responsibility. The event beautifully cultivated a spirit of sustainability and environmental stewardship, inspiring a community to cherish and protect nature’s legacy.

LABOUR DAY

MRG School’s Labour Day celebration was a heartfelt tribute to the unsung heroes of our society. The thoughtful ration drive reflected the students’ growing empathy and desire to make a difference. The joyful Tambola session brought smiles and togetherness. Together, these moments nurtured compassion, gratitude and a deep respect for the dignity of labour in every heart.

TOY DONATATION

The Toy Donation Drive at MRG School radiated warmth and compassion, reflecting the generous spirit of our community. With heartfelt contributions of stuffed animals, games, and educational toys, students brought smiles to countless underprivileged children through the NGO Toy Bank. This beautiful initiative nurtured empathy, kindness and social responsibility—creating joy for others and meaningful growth of our students.

Capturing Memories, Celebrating Moments

Saptarambha

Ushering in the new academic year with positive vibes and hopeful beginnings, MRG School commenced its academic session on April 1st, 2024, with a serene Havan Ceremony led by the revered Acharya Parmanand Bhardwaj. The sacred chants and rituals enveloped the campus in an atmosphere of purity, devotion and optimism as students and staff sought divine blessings for a bright and successful journey ahead. The fragrance of holy offerings and the warmth of togetherness created a sense of spiritual harmony. The ceremony concluded with the distribution of prasad, leaving hearts filled with hope, gratitude and renewed enthusiasm to embrace the year's learning and opportunities.

The Auspicious Beginning of 2024-25

Founder's Day Celebration

A proud frame
Our Director and Chairman with
Chief Guest Mr. Nishant Yadav, IAS

MRG School celebrated its 12th Founder's Day with grandiose fervor, paying homage to the illustrious legacy of Shri Mange Ram Goel. The esteemed *Chief Guest, Mr. Nishant Yadav, IAS,* joined dignitaries to extol the founder's profound impact. Enthralling cultural performances mesmerized the audience, while outstanding achievers and devoted staff were felicitated, exemplifying the school's unrelenting pursuit of excellence and its venerable heritage.The school reaffirmed its role as a beacon of learning through its unwarering dedication to holistic growth.

MRG School celebrated the 78th Independence Day with patriotic fervor and ceremonial grandeur. The event was graced by distinguished guests, including Major General Pramod Saigal, Major Mohd. Ali Shah, Dr. Sanjay Bhardwaj and Dr. Ajay Kumar Bansal, whose presence lent honor and inspiration. A majestic flag hoisting, soul-stirring national anthem, and spirited cultural performances set a tone of national pride. The day also marked the Investiture Ceremony, where the newly elected student council took oath with dignity and resolve. Clad in formal regalia, the young leaders pledged to serve with integrity and purpose, making the celebration a powerful tribute to both national values and student leadership.

Independence Day Celebration

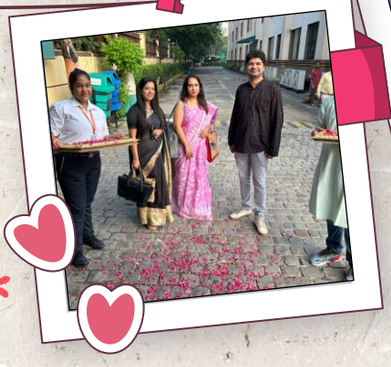

A Celebration of Brotherhood @PM House

In a memorable and revered moment, students of MRG School had the honor of visiting the Prime Minister's residence to celebrate the auspicious festival of Raksha Bandhan. With pride and respect, the students tied sacred Rakhis to the Honourable Prime Minister, symbolizing the bond of protection and unity. During the interaction, the Prime Minister shared valuable insights on the festival's essence—mutual respect, care and responsibility. This profound experience deepened their connection to the nation's leadership, fostering a spirit of harmony, trust and national pride.

teachers' day

CONFLUENCE 2024

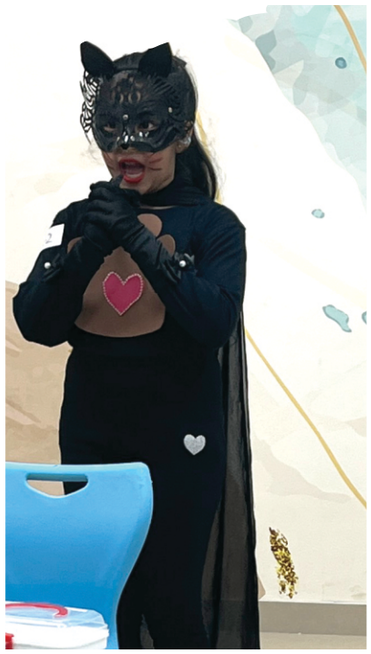

MRG School proudly hosted Confluence 2024, its esteemed inter-school fest themed Solidarity: Crafting a Better Future for Tomorrow. Welcoming participants from over 29 schools, the event celebrated creativity, innovation and unity through a vibrant array of literary, cultural, artistic and technology-driven competitions. With spirited participation and stellar performances, Confluence became a dynamic stage for young talent to shine. This year, Vikas Bharati Public School emerged as the overall champion, lifting the coveted Rolling Trophy after securing top positions in six diverse events. The resounding success of Confluence reaffirms MRG School's unwavering dedication to holistic learning and collaborative excellence.

ECHOES OF GRATITUDE

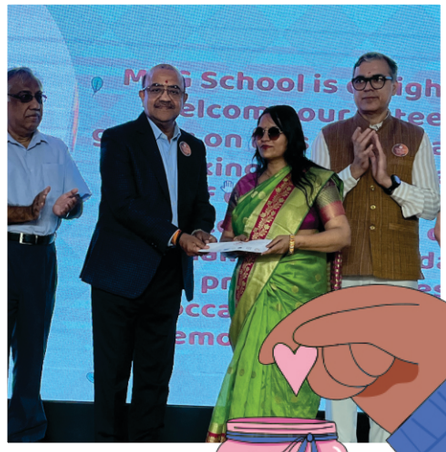

MRG School concluded Echoes of Gratitude Week with a heartwarming culmination ceremony, celebrating the values of empathy, kindness and thankfulness. The week was filled with meaningful initiatives ranging from Service Learning Programme-Knock-the-Door, visits to old-age homes and thoughtful gestures for community helpers. A significant highlight was a generous contribution to the National Blind School, Delhi, reflecting the school's spirit of giving. The event beautifully reminded everyone of the importance of gratitude and making a positive difference in the lives of others.

CRESCENDO

MRG School hosted its much-awaited annual event – the school carnival, CRESCENDO, this year. The celebration was marked by great pom pand show, with a wide array of game stalls creatively planned and set up by both students and teachers. The day brimmed with fun, excitement and enthusiastic participation from parents, students and staff alike. From captivating performances to delicious food stalls, from thrilling rides to exciting lucky draws - CRESCENDO truly became a day to remember for the entire MRG family.

Blessing Ceremony

As part of its annual tradition, MRG School held a Blessing Ceremony for students of Grades X and XII to seek divine blessings ahead of their board examinations. The ceremony began with a sacred hawan, invoking a sense of peace and positivity. Our esteemed Principal, Ms. Anshu Mital, also addressed the students, offering words of encouragement and valuable guidance to help ease exam-related anxiety. The ceremony infused the students with renewed confidence, calmness and positive energy as they prepared to embark on this important academic milestone.

Bidding Adieu with Love

MRG School organized a deeply emotional farewell for its Class XII students, bidding them adieu as they prepare themselves to embark on the next pivotal chapter of their academic journey. The event brimmed with warmth, cherished memories and heartfelt encouragement, as teachers and peers gathered to celebrate the students' remarkable achievements. This poignant moment honored their dedication, resilience and growth. Surrounded by blessings, cheers and good wishes, the MRG family sent them forward with confidence, wishing them success and excellence in all their future endeavors.

Graduation Ceremony

MRG School celebrated a joyous and heartwarming Graduation Ceremony for its Kindergarten students, marking their transition to Grade I. The young graduates beamed with confidence and excitement, celebrating their first academic achievement. The event was filled with laughter, pride and reflection as teachers and parents came together to honor the children's growth, learning and the wonderful journey of early childhood education.

ENGLISH WEEK

English Week was celebrated with immense enthusiasm, offering students an exciting platform to dive deep into the richness and versatility of the English language. The week was brimming with a wide array of captivating activities—ranging from storytelling adventures and lively rhyme recitations to thrilling scavenger hunts, thought-provoking debates, expressive blackout poetry, imaginative comic strip creations and dynamic musical performances. Each event not only showcased the creative potential of our students but also reinforced our commitment to nurturing confident communicators and inventive thinkers.

FRENCH WEEK

The celebration of French Week was marked with great enthusiasm and vibrant energy as students took the lead in distributing specially designed French Week badges across the campus. The spirit of celebration was evident as learners joyfully engaged in creating beautiful alphabet charts and culturally inspired artwork, which were proudly displayed during the Parent-Teacher Meet. This meaningful initiative not only sparked curiosity but also fostered a deep appreciation for France's rich language and cultural heritage, turning the week into a lively exploration of creativity, learning, and global awareness.

HINDI WEEK

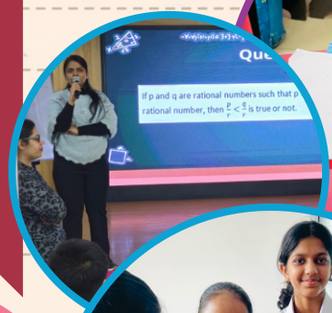

MRG स्कूल में राष्ट्रकवि मैथिली शरण गुप्त जी के जन्मदिवस (3 अगस्त 1886) के उपलक्ष्य में एक विशेष हिंदी सप्ताह का आयोजन किया गया। इस आयोजन का उद्देश्य विद्यार्थियों में हिंदी भाषा के प्रति प्रेम और जागरूकता उत्पन्न करना था, साथ ही राष्ट्रकवि को उनके साहित्यिक योगदान के लिए श्रद्धांजलि अर्पित करना भी था।हिंदी सप्ताह के अंतर्गत विद्यालय में विविध गतिविधियाँ आयोजित की गईं, जिनमें सभी कक्षाओं के विद्यार्थियों ने उत्साहपूर्वक भाग लिया। कार्यक्रम की शुरुआत बाघ संरक्षण पर आधारित एक प्रेरणादायक मुखौटा चलचित्र के प्रदर्शन से हुई, जिसने पर्यावरण संरक्षण और जीव-जंतुओं के प्रति संवेदना का संदेश दिया।

हिंदी सप्ताह की यह श्रृंखला विद्यार्थियों के लिए न केवल शैक्षिक रूप से लाभकारी रही, बल्कि यह उनके भीतर भाषा, संस्कृति और साहित्य के प्रति सम्मान एवं गर्व की भावना भी जागृत करने में सफल रही ।

Enriching Subject Weeks

SANSKRIT WEEK

संस्कृत सप्ताह बड़े उत्साह और उल्लास के साथ मनाया गया, जिसमें विद्यार्थियों ने संस्कृत भाषा की गरिमा और महत्ता को निकट से अनुभव किया। इस सप्ताह के दौरान विविध रोचक गतिविधियों का आयोजन किया गया — जैसे कथावाचन, श्लोक वाचन, सुभाषित प्रस्तुति, संस्कृत संवाद प्रतियोगिता, समूह गीत, नाट्य प्रस्तुति, पोस्टर निर्माण और संस्कृत हस्तलेखन प्रतियोगिता। प्रत्येक कार्यक्रम ने विद्यार्थियों की रचनात्मकता, आत्मविश्वास और अभिव्यक्ति क्षमता को निखारने में महत्त्वपूर्ण भूमिका निभाई। इस सप्ताह ने विद्यार्थियों में संस्कृत के प्रति रुचि और प्रेम को बढ़ाया तथा हमारी सांस्कृतिक धरोहर को सम्मान देने की भावना को प्रबल किया।

SOCIAL SCIENCE WEEK

Social Science Week was celebrated with great enthusiasm, offering students a wonderful opportunity to explore the fascinating worlds of history, geography, political science, and economics. The week featured a wide range of engaging activities — from historical role-plays and poster-making competitions to quizzes, storytelling sessions, debates, and project displays. Each event not only enriched the students' knowledge but also fostered creativity, critical thinking, and teamwork, helping shape them into aware and responsible citizens. The week beautifully highlighted the importance and relevance of social sciences in our lives.

SCIENCE WEEK

Science Week Celebration at MRG School, unfolded as a vibrant and enriching celebration of curiosity, discovery, and innovation. With the theme Global Science for Global Well-being, the week beautifully illuminated science as a beacon of hope in addressing the world's most pressing challenges. Students across all grades immersed themselves in hands-on explorations, thought-provoking experiments, and creative showcases. The campus buzzed with excitement as young minds engaged deeply with the wonders of science, reflecting a collective vision for a brighter, healthier, and more sustainable future.

MATHS WEEK

On account of National Mathematics Day on 22nd December 2024, MRG School hosted a week-long Math Week celebration, bringing numbers, logic, and problem-solving to life. Engaging activities like Scavenger Hunts, Math Relays, Math Hop and Quiz Challenges encouraged students to explore mathematical concepts beyond the classroom. The interactive sessions fostered curiosity, critical thinking, and teamwork, making learning fun and meaningful. Students participated enthusiastically, proving that mathematics is not just about numbers but a creative and exciting journey. The week was a resounding success, inspiring young minds to appreciate the beauty of math.

Tales from the Creative Mind

ENGLISH

WAITING FOR DAD

One evening, a kid named Sam was looking out of the window waiting for his dad to come home, back from his work but it was raining heavily. The weather outside started to get worsen. It felt like stones were hitting his home and roads started to fill with water. There was thunder and lightning and the lights went out too. Sam was worried as his dad hasn't returned home yet and his phone was not reachable. As it was getting late, he was getting tired and sleepy, looking out the window, he saw lights blinking at the corner of the road and he wished it was his dad. He was relieved and happy to see that his dad was back home safe . He gave him a tight hug and went to sleep.

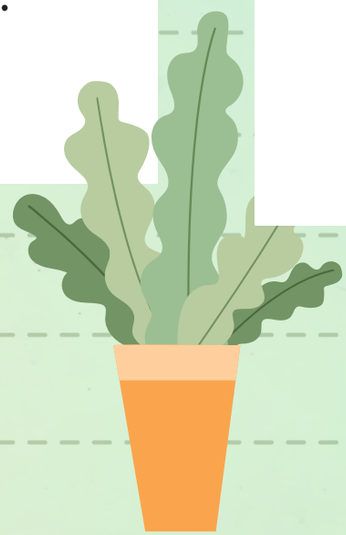

Aarav Chawla
(II-A)

THE MAGICAL BOOK

Once upon a time, there was a girl who found a magical book. When she opened the book and drew something on it, suddenly those things came out of the book and became real. The girl was shocked to see how it was possible. When she read the cover page, she saw that it was a MAGICAL BOOK. This made the girl dance with joy. She became so greedy that she decided to draw many things on the book so they would start becoming real. She became greedy and she kept on repeating the same each day.
But one day, God used his powers to take back the magic from the book. After this, when the girl started to draw in the book, nothing came out of it.
Moral: Never be greedy.

Mahi Maggo
(II-A)

My Family

I am happy, I am blessed, for the gifts I got.

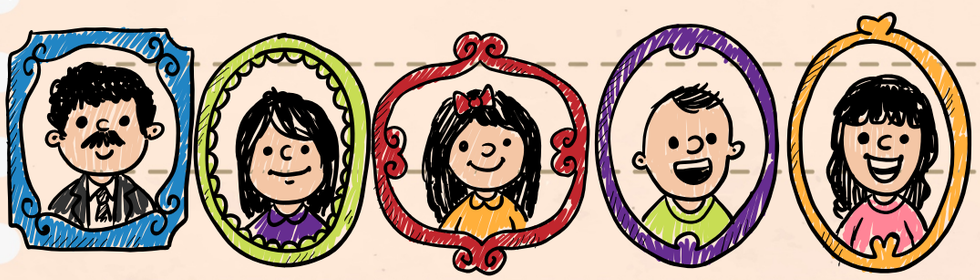

My family is my greatest treasure,
Which gives me immense pleasure.

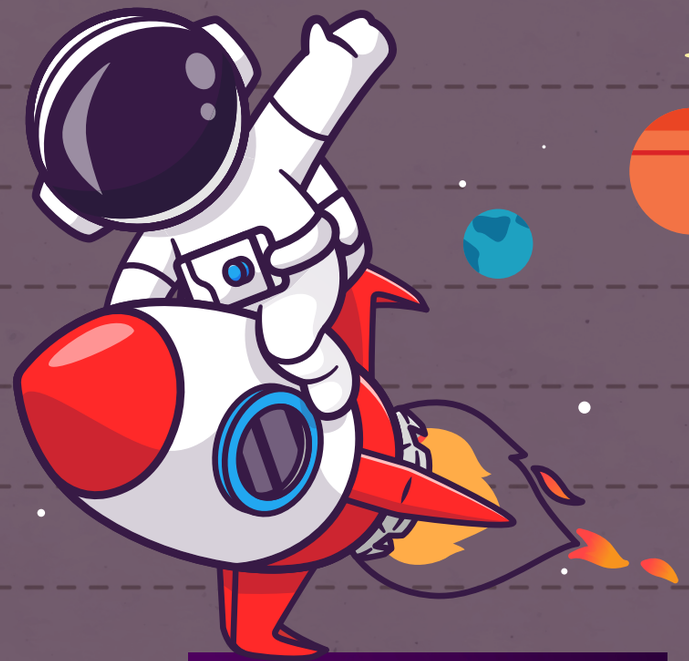

My dad is my hero,
He gives me solutions when I feel like a zero.

My mom is whole Universe to me,
Who always stands for me.

My sister, my twin,
When we are together, we always win.

Mayra Singh
(II-A)

Galaxy

My Friend's name is Galaxy,
She is going on a taxi.
Her driver's name is Maxi,
He is very flexi.
Where to, Miss? Maxi said,
Galaxy replied, " To the stars bed".
The Taxi Became a Ship at night,
Sailing through Galaxies bathed in Light.

Shaina Gupta
(II-D)

JOKES

Why did the student bring a pillow to school?
Because they heard the teacher say, “Let's dream big!”

What did the teacher say to the student who was building a sandcastle in the classroom?
"Very imaginative, but remember, this is a 'learning environment,' not a 'beach resort.'"

Why did the student bring their pet goldfish to school for show and tell?
Because they had to do a presentation on "The Importance of Teamwork" and the goldfish was a great listener.

What's the fastest way to learn your time tables?
Ask your teacher to sing them at the speed of light!

Why did the student bring a ladder to school?
To climb the mountain of homework.

Riddhi Garg
(II-D)

John the Naughty Boy

Once upon a time, there was a girl named Pinki and her brother John, who lived in a castle. John was not good at table manners. But Pinki was very good at it. One day, John was licking his fingers and wiping them on the table cover. Pinki saw him licking his fingers and wiping on the table cover. Pinki told him that if you do this next time, I will tell mom. Again, John was licking his fingers and wiping on the table cover. So, Pinki without telling John, tells her mother. Mother didn’t believe what Pinki said because John was her favourite. Pinki felt sad that mother didn’t believe her. So, she decided to show mother how John was licking his fingers and wiping it on table cover. So, when mother saw John licking his finger and wiping on table cover, she scolded John a lot.
Moral of the Story: See first then decide.

Saanvi Agarwal
(II-D)

RAINBOW

Colourful rainbow in the sky,
Over the rainbow I wish to fly.
I love the colours of the rainbow,
Violet, Indigo, Green and Yellow.
I also like Orange and Blue,
Red I love the most, what about you?

Veet Thakur
(II-D)

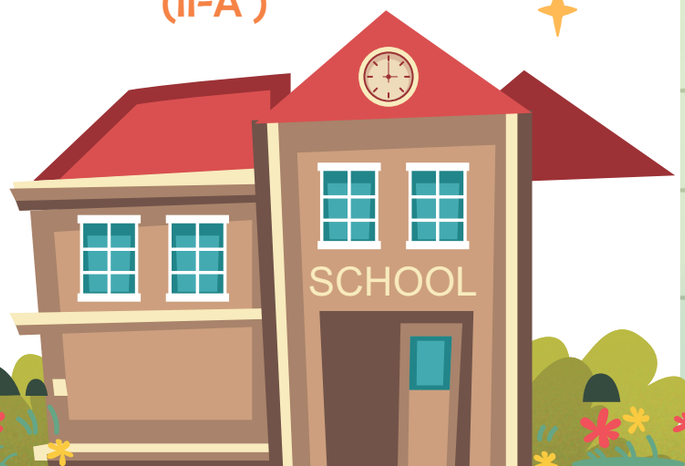

School! School! School! How Cool!

School is the hall of learning- dreams take flight,
Wave your hope, in the bright light.
Every struggle and cheer,
We carve our paths with vision clear.
It is a big knowledge pool,
Here I met my friends so cool.
We play and follow every rule,
I love my school.
We read, we write, we play,
To learn new things each day.
My school is a place where I new feeds,
Learn new things and do good deeds.

Shravya Vijayran
(II-A)

My Promise to Learn

Each day I'll do my best,
And never settle for less.
My work will make me proud,
And I won't accept a mess.

I will colour carefully,
My writing will be neat.
And I will not feel happy,
Until my exams are complete.

I will always do my homework,
And try my best on every test.
I won't forget my promise,
To do my very best.

Jivika
(IV-B)

The Boy Who Loved Christmas

Once upon a time, there was a boy named Noah who loved the festival of CHRISTMAS. He loved the colorful lights, the beautifully decorated tree and of course the gifts under it!

He would wait the whole year for Christmas and hope that SANTA CLAUS would come and bring him lots of gifts. He used to enjoy drinking the hot chocolate made by his mother. He would also be excited to see his relatives and friends!

When December started, he helped his mother decorate the tree and would often watch different Christmas movies with his family. He enjoyed dancing with his friends and playing many Christmas games together!

He would go around the neighborhood, handing out gingerbread cookies and wishing everyone a MERRY CHRISTMAS.

Everyone would be bursting with happiness whenever he came to their home.

Myra Chawla
(IV-C)

My Teacher, My Inspiration!

A grateful heart I hold today,
For teachers who show me the way.
Their patience and care are a guiding light,
That helps me earn and make everything right.
Their kindness and wisdom I adore,
They help to feel safe and I can not help but seek more.
With every lesson I learn to share,
My teachers who truly care.
In a classroom filled with laughter and fun,
They make learning easy for everyone.
Their dedication is a shining beam,
Inspires me to be my best dream.
From ABCs to Math and Science,
they teach us all with a heart that's true.
I am thankful for their smiling faces,
And the knowledge that they bring to the place.

Sadhil Bansal
(IV-C)

Hope's Eternal Light

When darkness falls and fears arise,
And doubts creep in with whispered lies,
Hope's gentle voice, a beacon bright,
Shines forth to guide us through the night.

With every step, with every fall,
Hope's eternal light stands tall.
A flame that flickers, yet never fades,
Illuminating paths through winding shades.

In life's turmoil, when waves crash strong,
Hope's anchor holds, where love belongs.
A shelter from life's raging sea,
A refuge where the heart is free.

So hold on to hope's eternal light,
And let its warmth dispel the darkest night.
For in its radiance, we'll find the way,
To navigate life's journey, come what may.

Devansh Goya

The Journey of the Leaf

A golden leaf clung to the tree,
Afraid of the wind's wild decree.
"Let go," said the breeze, soft and kind,
"There's more to see if you don't stay behind."

The leaf released, unsure and small,
Spinning gently through the fall.
It soared past rivers, fields and skies,
Discovering the world with curious eyes.

At last, it landed, calm and free,
Grateful it trusted the journey to be.

Moral: Growth comes when you embrace the unknown.

Sanvee Mangla
(V- C)

STORM TO STRENGTH

In Kansas, under skies so gray,
A cyclone swept young Dorothy away.
To Oz she came, a land so bright,
With magic roads, and colours light.

She met a scarecrow with no brain,
A tin man's heart was locked in pain.
The wicked witch they fought with care,
Her power was lost in the open air.

The wizard though a simple man,
Showing them their strengths, always ran.
The scarecrow thought, the tin man cared,
The lion's courage was always there.

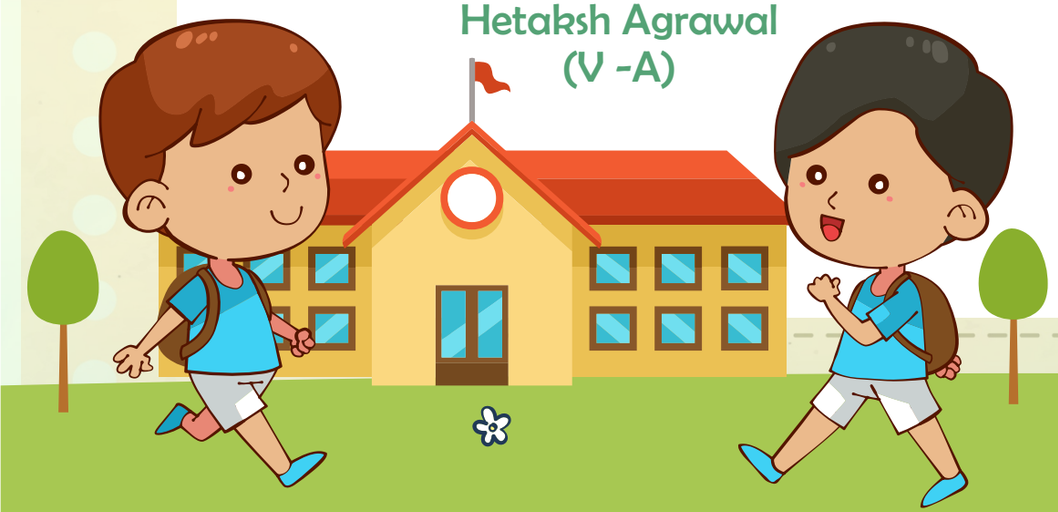

Through all they came to see the greatest strength in Unity.

Nabhyansh Anand
(V-D)

SCHOOL

"School is not cool,"
Said by some fools,
Whatever we learn,
Is taught as it's easier to crush fern.
Coming here is fun,
"School is boring," said none.
The teachers are kind
And when we graduate we have a sharp mind,
We also make friends,
And they are not fiends.
Learning here is the best,
As it is full of zest.
The teachers are full of patience,
And they teach like Edison.
And as I said,
"School is not cool," said some fools.

Hetaksh Agrawal
(V -A)

The Dawn's Majesty

The dawn, a canvas, soft and pale,
Where hues of rose and gold prevail.
A whispered breeze, a rustling sigh,
As sleepy shadows start to fly.
The ancient trees, with limbs so grand,
Hold secrets whispered through the land.
Their leaves, a tapestry of green,
A vibrant, ever-changing scene.
The river's flow, a silver thread,
Where sunlight dances, softly spread.
A story centuries old.
And in this grandeur, I perceive,
A sense of wonder, I believe.
But also, fleeting, bittersweet,
The world's vastness, at my feet.
The weight of futures, yet unknown,
Against the seeds that nature's sown.
A fragile balance, held so tight,
Between the darkness and the light.
The world unfolds, a vibrant scroll,
A complex beauty, taking hold.
And in its depths, I start to see,
A part of nature, lives in me.

The Whispers of Oakwood Manor

The wind howled outside the old Victorian house, its icy fingers pressing against the windows, making the walls creak and groan as if alive. Inside, Jane sat by the flickering fireplace, lost in a novel she had picked up earlier that day—The Secrets of Oakwood Manor. The bookstore clerk had called it a thrilling mix of suspense, drama and fantasy, and Jane had been intrigued.

The story followed Emma, a young woman who inherited a crumbling manor deep in the English countryside. What seemed like a gift turned into a curse as she discovered the house's haunting secrets. The vivid descriptions made Jane feel as though she were walking through the dusty halls and dark passageways herself. Each page pulled her deeper into the eerie world of Oakwood Manor.

Just as Emma uncovered a key clue in the story, a loud crash from the kitchen jolted Jane back to reality. Her book slipped from her hands as her heart raced. She cautiously approached the kitchen and found a vase shattered on the floor. Among the shards lay a small note in elegant handwriting:

"Beware the shadows that lurk in Oakwood Manor."

A chill ran down her spine. Was it coincidence—or something more?

Unable to shake the strange feeling, Jane continued reading late into the night. The line between fiction and reality began to blur. She dreamt of whispers and shadows, and awoke with the sense that something was watching her.

Determined to understand the mystery, Jane visited the local library. There, she uncovered real stories of betrayal and revenge tied to Oakwood Manor—stories that mirrored the novel's plot. Armed with this knowledge, she returned home, only to feel the house itself watching her.

Then, from the shadows, a figure appeared—Emma. Pale and ghostly, she warned Jane of the danger ahead. Together, they uncovered the truth behind a centuries-old curse that had trapped souls in the manor. To end it, Jane had to face the darkness hidden in a sealed chamber within the house.

With Emma's help, Jane confronted the malevolent force and broke the curse, setting the spirits free. As sunlight poured over Oakwood Manor, the whispers finally faded.
Though the story had ended, Jane's journey had just begun. The manor had taught her the power of courage—and that sometimes, the line between fiction and reality is thinner than we think.

Time and Manners are Precious

Once upon a time, a boy lived in a village. His name was Facherrini. He always wasted his time playing and doing unusual things. He never focused on studies. He always delayed the important things. He was impolite. His grandfather always explained to him not to waste time and to be polite. But Facherrini never listened to his grandparents.

One night, Facherrini got frustrated with hearing it so many times. So, he went to his grandfather's bedroom and asked "Grandpa, why do you keep on saying not to waste time and to be polite? I will utilize my time to study later and play right now as I have enough time throughout the day" so his grandfather answered "I am not refusing you to play. I am just advising you to have a balance between studies and play time. You must utilize your time judiciously unless it is too late. Also, never delay your things'. His grandson questioned "But why?" His grandfather answered proudly "Okay, I will tell you a story that my grandfather once told me then after hearing it is your choice to utilize or waste your time". So he started narrating the story.

Once upon a time there was a king named Satin and he administered a place near Kalabari. He used to waste his time and always wanted someone to tell him a story. He used to insult his soldiers, administrating staff. Due to this, the soldiers started to hate him because he never gave respect to his army, administration and wasted money on unnecessary things. One day, he found out that his kingdom's money was going to run out soon and he realized that he had not utilized enough money and administration for the well being of his kingdom and he lost his kingdom. So, Facherrini we learn from this story that one should not waste their time but instead utilize it properly and be a polite person. Now, tell me from now on will you utilize your time well or waste it? And will you be a polite person? Facherrini replied "Sorry, Grandpa from now onwards I will utilize my time and become a polite person". After a few years, Facherrini became a well-known businessman who was appreciated by his entire staff for his humble nature.

11. A caterpillar 12. The letter 'Y' (Why)
13. The chicken came first because it appears first in the dictionary 14. The letter 'B' (Bee)
15. Cartoon nut-work 16. Tickle, Tickle, Little Star!

The Best Gift Ever

The last bell of the exam rang and we threw our pens in the air. Finally, we were free! My best friends Riya, Simran and I ran outside the school, shouting, “Holidays are here!”

That evening, our parents called us to Riya’s house. “We have a surprise for you!” my mom said, smiling. We looked at each other. What was going on?
“You girls did so well in your exams,” Riya’s dad said, “So we are taking you all on a trip to Andaman and Nicobar Islands!”

We jumped, screamed and hugged each other. This was unbelievable! A whole trip? Just for us?

The day of the flight came faster than we expected. At the airport, we clicked pictures, bought snacks and talked non-stop. The moment we got into the aircraft, we felt like celebrities. Simran kept pressing buttons, and the air hostess had to come twice to tell her to stop.

When the plane took off, my ears popped, but I didn’t care. The view from the window was too beautiful. “It looks like cotton candy.” Riya whispered.

On the flight, we made a list of things to do. “We have to try scuba diving,” I said.
“And go to Radhanagar Beach,” Simran added.
“Oh and we should also see the light and sound show in the Cellular Jail.” Riya said excitedly.

When we landed, the air smelled like the sea. Everything was green and blue and the sky was so clear. We looked at each other and smiled. This was going to be the best holiday ever!

ROSES

I have always admired roses,
but not for their colour.
There's something about them,
that I haven't yet discovered.
Yet everyone tells me,
that I am looking in too deep.
That it is just a flower,
just a little prize you can keep.
But yet there is something special,
about the roses that you see.
And it's not about the petals,
it’s about the thorns to me.
It puzzles me how something,
so beautiful and rare,
can cut you so deep,
and you wouldn't even care.

Aashita Arora
(VI - C)

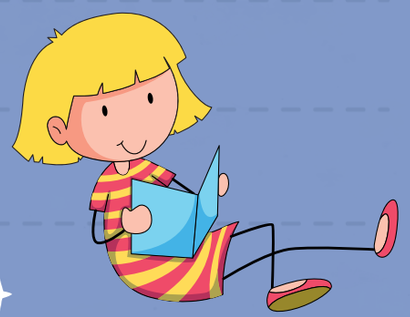

Lily's Adventure

Lily was a young girl who loved to read books more than anything else. Every day after coming from school she visits the old library near her house in the evening. The library was huge and had dusty tall shelves full to the brim with books from ancient history to modern life. Today was different as she was passing by the towering shelves, she felt a strange feeling. Her eyes saw something unusual, an old book which was glowing.

She stood up on a small stool and as soon as she dusted the book, the library started to spin and walls melted into a swirl of colours. Before she could cry out and understand what was happening, she felt being pulled towards the book and the swirl turned into a world that was completely made up of candy. The grass, the trees and the ground. Everything was made up of candy. As she wondered where she was, she saw a giant melted chocolate fountain. While she was looking around the fountain for any clue. She found a note engraved on the walls of the fountain. It spoke "The adventure of Candyland awaits you. Save this world from getting destroyed, fellow traveller". She wondered, "What does this fountain mean?" She started to search around again to find a way back to home, while looking around she climbed a mountain and found a large city and a sign which said: "Welcome to Candy Topia".She thought to herself that someone could be there who can help her go back home. As she wandered through the streets of the city, she saw a giant building that looked like a palace. As she got closer to the building, she saw guards guarding the doors. She asked them, "Is there someone in there who can help me get back home?". They thought she was a threat and captured her and presented her to their king, Candytopius the third.He questioned her, "Who are you? What are you doing here?" She told him the entire story. He said, "Ah so you found the ancient book of Chocotopia"

She asked, "What?"He said, "It is an ancient book of our ancestors who lived here. It connects your world and ours. Did the fountain really say that?" She said, "Yes, it said that."He said, "That is very concerning, I wonder if the fountain's chocolate machine is broken."She asked, "What role does chocolate play in this entire world of candy?" He said, "Chocolate is the lifeline of this world. If it runs out this world wouldn't exist." She asked, "Can I help you in any way and in return would you help me go home?" He said, "Happily! But opening the portal will need chocolate and if the machine doesn't start working, I can't send you back."The king and his men quickly rushed to the fountain and to open the door to the chocolate machine, they had to press a hidden button. They quickly searched around and found the button. They pressed it and ran towards the machine. The machine had a clog in the pipe that supplies melted chocolate to the fountain. They tried everything but nothing worked but then she got an idea. She quickly broke a twig from a tree and started pushing clog from one end and due to the pressure on the other end it burst out and the machine started working. King thanked her and opened the portal to her homeland.
He said, "You can return here anytime you want."

The Disappearing Mansion: Crime of the Century

Once on a stormy night of December, the Castlegar mansion in New Delhi stood with pride. It is believed that inside its walls, there is gold and other precious things that are passed on from generations to generations. One day, at midnight a group of people inside a black van, swiftly and silently, moved inside the Castlegar mansion. Their goal? To steal the whole manor. With the talented people was a smart man who devised the entire plan and called himself,' The Architect'. The wealthy and the rich were having a masked party with drinks inside the manor whereas, another story was going on beneath the manor.All the heavy lifts that were specially modified to hold the entire weight of manor were in position and the advanced sensors that were made with skilled craftsmanship helped loosen the foundation of the manor. 'The Architect' was filled with pride as he had planned this crime 1 year ago and has been observing every inch of the Castlegar mansion. This plan was his dream and he believed that this crime would revolutionize the crime industry and break the limits of human creativity and thinking power. The lifts were working perfectly and lifted the manor completely without breaking a single brick. This work was done so smoothly that neither a single thing moved inside the manor and the people inside the manor couldn't even feel that the manor was moving.After carefully bringing the manor down on a transporting platform, they carefully hid the marks for the heavy lifts so the police didn't follow them. The transporter had special tires that didn't leave any marks and was modified by 'The Architect' himself.

The people inside the manor were scared and also terrified as they saw that the manor was moving. 'The Architect' put the people to sleep with sevoflurane gas. When the people woke up, they weren't even in the manor anymore, they were outside a local police station. They told the police everything and ran a large-scale investigation in the area as they hadn't seen such a crime but, with the clever mind of 'The Architect', the police weren't able to find any vehicle tracks or any clue. Without any concrete proof, they weren't able to tell who stole the manor. Meanwhile, inside 'The Architect' in a warehouse which was underground, along with a team of expert people were taking the house apart piece-by-piece. They found the gold that was stored inside the house was worth $20,000,000 but the architect didn't care about the gold, what he cared about was the craftsmanship, the hard work and dedication put into this whole plan to make it real.

This plan in itself changed the perspective of the global economy and helped people discover ways to change the position of houses and monuments without breaking them.

The Mystery of the Conjuring School

Johnny and his friends—Tanish, Eric, Aakarsh and Naman—wanted to make Tanish's birthday unforgettable. They decided to visit a haunted school with six ghostbusters and vlog the entire adventure to uncover the mystery behind the hauntings.

After much research, they found the scariest place of all—the Conjuring School in Maxwell, Lowa. Built in 1598 and closed in 1666, it was rumoured to be cursed.

Originally planning a short visit, Johnny suggested staying seven days to get more content. Eric was worried, but after some convincing—and the promise of ghostbusters joining—they all agreed.

They traveled in a caravan, blindfolding Tanish for the surprise. Upon arrival, the air turned icy and it felt like someone was watching them. The first building's door opened by itself, confirming something strange was going on.

Inside the first classroom, shadows of ghostly children appeared, and names were mysteriously written on the blackboard. Though they hadn't reached the dreaded boiler room, they were already spooked. One ghost child warned them: never run, or death would follow within a year.

On their way to the boiler room, Johnny felt tickled and ran—breaking the ghost's warning.

In the boiler room, the ghostbusters used a Ouija board and contacted the spirit of Bailey Beckin. That night, they slept in the staff room, the safest place in the school.

The next day, they tried the ball challenge—a ghostly test. When the ball not only fell but cracked the wall, even the ghostbusters were terrified. Using ghost-hunting tools, they uncovered the dark history of the school—deaths, kidnappings, and a powerful entity named Lord Umbra Lethith, hidden in Building A666.

Ignoring the warnings, they entered A666. Johnny, already cursed from running, was scratched, and Tanish got possessed by Umbra. The ghostbusters freed him using a special device. Surprisingly, Umbra let them go, impressed by their bravery—and lifted Johnny's curse.

Back home, Johnny learned the truth about his mistake. Scared, he begged the ghostbusters to stay with him for a year. They agreed—and when nothing happened, they became like family.

Two years later, Johnny hosted another birthday party. But this time, they made a promise: never visit haunted places again.

They kept their word. Until the oath was broken.

Bottled Light

Paint is only wasted if it stays in the tube,
No brush to hold, stories remain untold.
Pages wasted when no words are written,
No ink spills the beans, secrets yet undiscovered.

Melodies remain unsung, poems left unheard,
Notes and verses fading like echoes blurred.
Instruments not strummed, strings gathering dust,
No chorus to linger, no rhythm to trust.

Dance steps forgotten, feet frozen in place,
No bat striking ball, no net left to guard,
No goals to chase, no races fought hard.

No crowds erupting with pride's wild roar,
No trophies gleaming like dreams to explore.
Don't just water the leaves, reach the roots,
So when autumn comes, they won't fall loose.

Spill the paint, let ink run free,
Sing loud, dance bold, play fiercely.
Why dim your light, why close the door?
Who are you holding it all back for?

Parishi Diwan
(VII-A)

The Power of Words

Words can build and words can break,
They shape the world with what they make.
A gentle phrase can heal a heart,
A careless one can tear apart.

Like morning sun, words bring light,
Turning darkness into bright.
A whisper soft, a promise true,
Can paint the sky in a golden hue.

Yet words misused, like stormy seas,
Can shake the strongest, bend the trees.
A cruel remark, a bitter sound,
Can bring the tallest towers down.

But if we choose our words with care,
To spread kindness, love and share,
We hold the power, deep inside,
To lift, to comfort and to guide.

So speak with wisdom, choose with grace,
Let kindness shine upon your face.
For words are echoes, far and wide,
A force that time can't cast aside.

Ashika Jain
(VII - B)

Moonlit Mirage

In twilight's hush, where shadows play,
A lunar whisper weaves its way.
Through dreamscape realms, both old and new,
A path unwinds for me and you.

With silken threads, the night's dark loom,
Weaves tapestries of moonlight bloom.
The stars up high—a twinkling sea,
Reflecting magic for you and me.

In this mirage, where moonbeams roam,
We'll chase the night and make it home.
With every step, a new tale's spun,
As the moon's pale light our hearts have won.

Aadhya
(VII - D)

The Tapestry of Life

Life's journey—a path we all must take,
With every step, a new tale to make.
We search for answers in the stars above
And find solace in the beauty of love.

In this dance of life, we sway and spin,
With every step, our hearts beat within.
The rhythm of love echoes through time,
A symphony that forever will shine.

We face our fears and overcome our doubts,
And find the strength to turn our lives about.
We cherish every moment—every laugh and every tear,
And hold them close as precious memories dear.

We walk through sunshine and through rainy nights,
And find our way through life's guiding lights.
We search for meaning in every single day,
And find our purpose in our own unique way.

So let us cherish each moment we share,
And fill our lives with love and care.
For in the tapestry of life, we're woven as one;
With love and joy, our hearts will have won.

And when our journey ends and our time is done,
We'll look back...

Nargis
(VII - D)

Class 7 Dreams

Yo, Class 7, let's start the show,
We're learning every day, watch us grow.
Books and pens, yeah, we're set to go,
Mind so sharp, watch us glow.
Math in the morning, solving the sum,
Fractions, equations—here we come!
Science in the lab, it's hands-on fun,
Mixing and testing until we're done.
History's a story, we travel in time,
Past to present, the journey's prime.
English builds words that flow and rhyme,
Essays and poems, we make them shine.
Lunch break hits, it's laughter and cheer,
Friends around—best time of the year.
Sharing food, swapping jokes,
The bond we have? It's no hoax.
After school, we chase our dreams,
Big ambitions, endless schemes.
Dance, music, or sports—we strive,
Talent and hustle keep us alive!
Homework's calling, but we don't fear,
We grind it out and persevere.
Step by step, we're reaching high,
Class 7's ready to touch the sky.
So here's to us, the squad so strong,
Together we know we all belong.
Dreaming big, working hard each day,
Class 7 leads the way!
We've got the spark, we've got the fire,
Rising higher, fueled by desire.
Yo, Class 7, this is our time,
With focus and passion, we'll always shine!

Shanaya
(VII - D)

The Lyrical League

Let's dive deeper into poetic flair,
With devices so cool, they're beyond comparison.
We'll start with similes, "like" or "as" in line,
"Her smile is like sunshine," it's pure, divine.

Poetic devices, they make words sing,
Rhymes and rhythms, a creative ring.
Metaphors, symbols, emotions rise,
Crafting art with poetic ties.

Metaphors strike, no need to compare,
"The world's a stage," see the meaning there.
Hyperbole shouts, it's over the top,
"I'm drowning in work! Will it ever stop?"

Personify objects, give them some soul,
"The clock's hands race, out of control."
Repetition's key, it's a writer's delight,
Repeat to stress, make your words feel right.

Assonance sings with vowels in play,
"The rain in Spain stays mainly on the plain."
Consonance echoes with sounds that stay,
"Pitter-patter," like footsteps on the way.

Imagery paints what the mind can see,
"A crimson sky bleeds into the sea."
Rhyme scheme is the beat that poets choose,
ABAB or AABB to infuse.

Poetic devices, they make words sing,
Rhymes and rhythms, a creative ring.
Metaphors, symbols, emotions rise,
Crafting art with poetic ties.

So when you write, let devices lead,
A poet's toolkit to succeed.
Poetic devices, let your art ignite,
Make your words shine, bold and bright!

Tanishka
(VIII - C)

Ink It Before It Fades

School isn't just a building made of bricks and benches; it's a place where a thousand stories begin. It's where we first grasped a pencil with trembling fingers, wide-eyed and uncertain about the journey ahead. The sound of the school bell meant more than just the start of class; it meant another day of laughter, learning and growing.

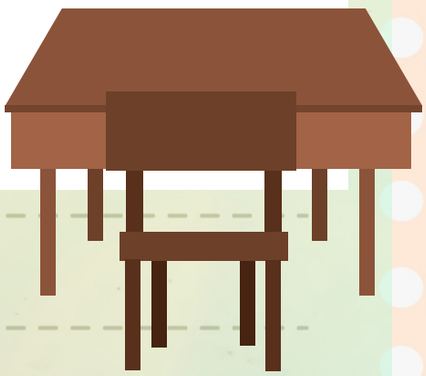

Our school life is a whirlwind of emotions, with some days feeling like a second home and others like a storm we're trying to survive. The early alarms, heavy backpacks, unfinished homework and endless lectures might seem daunting, but they make our experiences even more special. It's the place where we laugh until our stomachs hurt, where even the smallest compliments from our favorite teachers or a well-earned grade can completely turn our day around.

We're building memories in the crowded hallways and chaotic classrooms, often without realizing their importance. Our school life is a beautiful mix of bittersweet moments, from staying up late worrying about exams to waking up early, excited for school trips. The last-minute study sessions, inside jokes and chaotic lunch breaks that somehow always feel too short are what make our school lives even more precious.

As we near the end of our school journey, it's natural to feel a sense of nostalgia and longing. Realizing that the end of our messy yet unforgettable journey is not very far now breaks my heart, but at least we are still growing up together, side by side and that's what truly matters. We still have these moments, these people and this time that hasn't slipped away just yet.

We still have the random laughter in the middle of serious classes, the late-night exam panic texts and the comfort of knowing we're all in this together. Maybe that's what makes it all so precious – the fact that it's not forever. So instead of fearing the end, maybe we hold on tighter to now, to the friendships we've built, to the memories we're still making and to the version of ourselves we only get to be once, right here, right now in school.

Is AI a Threat to Human Activity: A Balanced Perspective

The world around us is changing rapidly with the advent of Artificial Intelligence (AI). From AI voice companions like Siri and Alexa to self-driving cars and data analysis tools, AI continues to integrate into our lives smoothly. AI brings numerous advantages, but it also raises an important concern: does AI pose a threat to human activity?

While AI brings amazing opportunities from a productivity perspective, it also poses serious threats to privacy, employment, creativity and decision-making. Tools powered by artificial intelligence (AI) offer significant advancements in virtually all areas of human activity. In the healthcare sector, for example, AI algorithms aid medical professionals in diagnosing health issues more accurately and swiftly. In the classroom, AI technologies enable personalized learning plans tailored to each student's learning pace.

The effectiveness of such tools is immeasurable, as they enable humans to dedicate more time to imaginative and constructive analysis. Moreover, AI technologies have vast capabilities when it comes to solving universal problems. For instance, AI may be used to evaluate climate data to determine environmental forecasting. It may also help with global humanitarian aid by analyzing satellite photos to find regions in need of its efforts.

However, there are also certain problems that AI brings about. One of the issues widely discussed is job loss due to automation. A large number of jobs, especially in manufacturing, customer service and even in law and journalism, could be at risk because machines and algorithms are able to do them. Another problem is the invasion of privacy. AI raises ethical concerns, such as surveillance and unethical use of data, primarily because it needs a large collection of datasets and files, including private files, to work accurately.

Additionally, there is the issue of losing control over decision-making. The more self-reliant AI becomes, the more humans risk losing control of making decisions. The military application of AI serves as an example of this - autonomous weapons driven by AI technology raise questions surrounding accountability and safety.

There is no doubt that AI brings risks; however, defining it exclusively as a threat ignores the potential positives it can provide. The challenge lies in development, requiring collaboration between governments, tech companies and the general public to prepare ethical frameworks and laws for AI usage. Equally important is education and reskilling. Society as a whole should prepare for potential employment changes by providing access to skills and new career pathways to ensure that people have the tools to adjust.

AI is not inherently a threat to human activity—it is a tool. Like any powerful tool, its impact depends on how we use it. With careful planning, ethical development and proactive adaptation, AI can enhance rather than endanger human activity. However, ignoring the risks could lead to significant social and economic disruptions. The future of AI, therefore, is not about fear—it's about responsibility.

Echoes in the School Halls

These halls remember every name,
Each whispered wish, each childhood flame.
The dreams we drew on notebook lines,
The tears we hid between the signs.
Laughter tucked in corners wide,
Secrets we had no need to hide.
The bell would ring, the day would start,
With hopeful eyes and open heart.
Now silent floors and fading walls,
Hold pieces of us in their calls.
For though we've grown and moved apart,
This place still holds a beating heart.

Hanshika Shokeen
(X-C)

A Peaceful Illusion

The pattering of the rain, a ciao from clouds,
Lightning like a flash of regret,
A thunder growling with the pain of splitting paths,
A crack in the sky, similar to my heart.
Just then, summer arises,
Warm and bright,
The sun bringing the longing hope,
With wind's whisper of wise.
Then, in forms of colour,
Spring pours in,
Blooming the flowers of orchid,
Wrapping my broken heart in it,
Healing it until it beats again.
Then the leaves fall off, dry and musky,
Thousands on the ground, parting from the tree.
And as the tree stands aloof, enters the misty snow.
A companion as old as the fallen leaves,
Someone I know, comforting like a heartfelt meet.
Rain, leaves, mist and snow —
We all meet on the ground, our dearest home.
From where some bloom, to where others bury,
We complete the circle here again,
A peaceful illusion we're stuck in again.
Like humans, nature also has moods,
Which we call as seasons.

Caste and Class Divide: A Student's Perspective on Bridging Gaps!

In a society aspiring to modernity, the enduring divides of caste and class represent not just a social injustice but a failure to recognize the shared humanity that binds us all. As students, we stand at the crosswords of this dichotomy, uniquely positioned to question, challenge and transform these divides into opportunities for inclusion.The Fixture of Caste and Class Caste, deeply entrenched in India's social fabric, divides people based on inherited hierarchies. Class, more fluid but equally divisive, determines access to resources and opportunities. This cycle of inequity thrives, weaving a web where access is restricted and opportunity remains a distant mirage for the marginalized. For many dreams remain confined beneath these invisible walls.

As a student, I've often wondered: Why should someone's future be predetermined by their birth? Why do we let old fashioned notions of caste or the weight of economic disparity dictate our interactions and judgements? Education should be the great equalizer, yet even schools and colleges mirror the disparities outside their gates. Icons of Change History offers us beacons of hope. Drabber. Amedkar rose from adversity to architect India's constitution, ensuring fundamental rights for all. Kalpana Saroj, a Dalit entrepreneur, overcame caste and stigma and poverty to build a business empire. These figures remind us that perseverance can shatter societal constraints but their stories also highlight that individual success cannot eliminate systemic inequalities.

As students we have a crucial role in rewriting this narrative. Schools and universities epicenters of global diversity, offering the perfect platform to break stereotypes and foster inclusivity. Here's how we can build a stronger and affirmative understanding-

- Dialogue not Distance: Engaging honest conversations about caste and class breaks the silence that sustains discrimination. Peer-led discussions or student-led forums can spark awareness.
- Action through Collaboration: Initiatives like tutoring economically weaker students or organizing cultural events celebrating marginalized voices build solidarity.

Representation Matters: Advocating for diverse perspectives in textbooks and classroom discussions ensures every story gets a platform. Including works by authors like Rohinton Mistry and Bama [A Dalit Feminist] bring these issues to the forefront.
Imagine a world where your last name doesn't decide your worth and your parent's income doesn't dictate your potential. Imagine classrooms where caste and class are footnotes in history lessons, not barriers in daily life. This is the world we must strive to create.

Bridging the caste and class divide isn't just about policies or activism; it's about humanizing one another. It's about seeing the shared dreams behind different struggles and building a future where diversity is celebrated, not segregated.
As students we are not just inheritors of this system, we are the architects of its transformation. Let's build bridges not walls!

Sanvi Kapoor
(IX-C)

Voices that Lead

Leadership begins not in boardrooms, but in classrooms. Across the world, schools are recognizing the power of student leadership—not just as a concept, but as a driving force for positive change. When students are encouraged to lead, they learn to think critically, act responsibly and contribute meaningfully to their communities.

Student leadership involves guiding and influencing peers, initiating projects and taking on roles of responsibility within the school environment. It's not limited to high-ranking positions; even simple actions like leading a class discussion, managing a club, or organizing a school event demonstrate leadership. Leadership can also emerge in everyday actions: the student who mediates a conflict, who helps new classmates feel welcome or who raises their voice for a worthy cause.

When students step into leadership roles, they undergo a significant transformation. They build self-confidence through public speaking and decision-making and develop resilience in handling criticism and setbacks. Student leaders contribute to a more inclusive and engaging school environment, serving as role models and helping bridge the gap between students and administration.

Student leadership takes many shapes and forms, each offering unique opportunities for students to grow, influence others and leave a lasting impact on their school community. Some prominent forms of student leadership include: Student Council, the most recognized form of student leadership,where student council members represent the voice of the student body. Student leadership isn't just about holding a title—it's about influence, responsibility and service. When students are given opportunities to lead, they don't just help improve their schools; they become future-ready citizens who are confident, empathetic and capable of leading change in the world. As educators, parents and peers, it is our duty to nurture this potential—because the leaders of tomorrow are sitting in our classrooms today.

Français

Mon Modèle : Ma Maman

Ma maman est mon modèle, car elle est forte, bienveillante et toujours présente pour moi. Elle
travaille dur chaque jour pour notre famille et ne se plaint jamais, même quand elle est fatiguée.
Avec son amour et sa patience, elle m'apprend à être une meilleure personne. Elle m'encourage à poursuivre mes rêves et me soutient dans les moments difficiles. Sa gentillesse et son courage
m'inspirent à toujours faire de mon mieux. Grâce à elle, j'ai appris la valeur du respect, du travail
et de la persévérance. Je suis fier(ère) d'avoir une maman aussi extraordinaire.

Le printemps est arrivé

Le printemps est arrivé,
Tout est vert, tout est gai.

Les oiseaux chantent dans les bois,
Le soleil brille avec joie.

Les fleurs s'ouvrent doucement,
Portées par le vent charmant.

Les rivières dansent et courent,
Au milieu des prés d'amour.

C'est la saison du bonheur,
Remplie de rires et de couleurs.

Le printemps nous dit : « Viens jouer,
Dans la nature, viens t'amuser ! »

le festival de la Francophonie

Le festival de la Francophonie est un événement célébré dans plusieurs pays du monde pour promouvoir la langue française et la diversité des cultures francophones. Il a lieu chaque année autour du 20 mars, lors de la Journée internationale de la Francophonie. Pendant ce festival, de nombreuses activités sont organisées, comme des spectacles de musique, des expositions, des concours de poésie et des projections de films francophones. C'est une occasion unique de découvrir les traditions, la gastronomie et les arts des pays qui partagent la langue française. Ce festival renforce les liens entre les peuples et valorise la richesse de la culture francophone.

Mes objectifs de vie

Dans ma vie, j'ai plusieurs objectifs que je veux atteindre. Tout d'abord, je veux bien réussir mes
études et apprendre de nouvelles choses chaque jour. Plus tard, je voudrais choisir un métier qui
me passionne et qui me permet d'aider les autres. Je rêve aussi de voyager dans différents pays
pour découvrir de nouvelles cultures et rencontrer des personnes du monde entier. Enfin, mon
but est d'être heureux, de rendre ma famille fière et de toujours travailler dur pour réaliser mes
rêves.

Les océans

Les océans recouvrent plus de 70 % de la surface de la Terre et jouent un rôle essentiel dans
l'équilibre de notre planète. Ils abritent une biodiversité incroyable, allant des minuscules
planctons aux immenses baleines. En plus d'être une source de nourriture et de ressources pour
l'humanité, ils régulent le climat en absorbant le dioxyde de carbone et en produisant une grande
partie de l'oxygène que nous respirons. Cependant, la pollution, le réchauffement climatique et la
surpêche menacent leur écosystème fragile. Il est donc crucial de les protéger en adoptant des
gestes écologiques et en préservant leur richesse pour les générations futures.

Mon dernier cours avec ma professeure de français

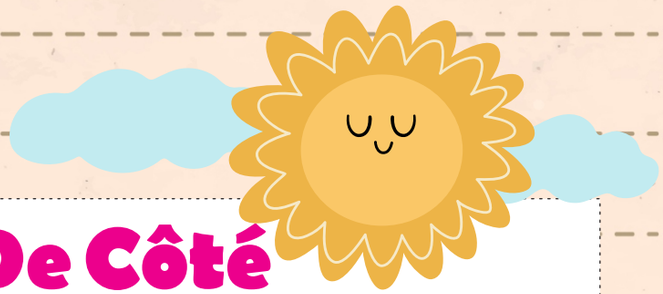

Mon dernier cours de français avec Mme Jasica a été un moment très spécial et émouvant. Elle nous a enseigné avec passion et patience tout au long de l'année, et ce dernier cours était une belle conclusion à notre apprentissage. Nous avons révisé les leçons importantes et fait des activités interactives pour tester nos connaissances. Mme Jasica nous a également raconté des anecdotes amusantes sur la langue française, ce qui a rendu le cours encore plus intéressant. Avant de partir, elle nous a donné de précieux conseils pour améliorer notre français et nous a encouragés à continuer à apprendre avec enthousiasme. À la fin du cours, toute la classe l'a remerciée chaleureusement pour son dévouement et sa gentillesse. Certains élèves ont même offert des cartes de remerciement. Ce fut un moment rempli d'émotions, et je garderai toujours de bons souvenirs de ses enseignements.

Mon Professeur

Toujours patient, toujours présent,
Il éclaire nos esprits doucement.
Avec ses mots pleins de sagesse,
Il nous guide avec tendresse.
Il ouvre les portes du savoir,
Nous apprend à croire et à voir.
Dans chaque leçon, dans chaque livre,
Il nous aide à grandir et à vivre.
Merci, cher maître, pour chaque jour,
Pour votre travail et votre amour.
Grâce à vous, sur ce chemin,
Nous avançons vers notre destin.

Ne Laisser Personne De Côté

Les Objectifs de Développement Durable (ODD) ont été adoptés par les Nations Unies en 2015
pour répondre aux défis mondiaux comme la pauvreté, les inégalités et le changement climatique. Ils comprennent 17 objectifs interconnectés qui visent à assurer un avenir durable et
prospère pour tous d'ici 2030. Parmi ces objectifs, on trouve l'éradication de la faim et de la pauvreté, l'accès à une éducation de qualité, l'égalité des sexes, la protection de l'environnement
et l'énergie propre. Chaque pays doit contribuer à ces objectifs en adoptant des politiques durables et en collaborant à l'échelle mondiale. Les citoyens ont aussi un rôle à jouer en adoptant
des gestes responsables, comme la réduction des déchets et la consommation responsable. Les ODD sont essentiels pour garantir un avenir meilleur aux générations futures en favorisant un développement équitable et respectueux de la planète.

Les Rêves et l'Espoir

Sous le ciel vaste et étoilé,
Nos rêves osent s'envoler.
Ils brillent, purs, dans l'infini,
Guidant nos pas, défiant la nuit.
Même si le vent se lève,
Si l'ombre danse sur nos rêves,
L'espoir demeure, clair et fort,
Un feu vibrant en notre sort.

Car chaque étoile dans le ciel,
Rappelle un espoir essentiel :
Même dans l'ombre, même dans l'oubli,
Brille toujours une lueur de vie.

अनोखे फूल

अजब-गजब अनोखे फूल
लगते बड़े सुंदर यह फूल।
दिखते बड़े रंग-बिरंगे,
प्यारे फूल, न्यारे फूल।
करते वातावरण ठीक
और आती मधुमक्खी,
लेती उनका रस!
हरे-भरे पत्ते खिलते,
और लगते बड़े मज़ेदार,
महकते फूल, अद्‌भुत फूल।

हम बच्चे

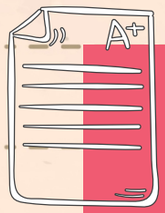

हम बच्चे जग में आए हैं,
आशा की किरणें लाए हैं।
नहीं जानते हम यह दुनिया,
नहीं, हम हैं कोई सोना।
हँसते हैं, करते प्यार,
बड़ों का करते हम सम्मान।

दिखते हम भोले-भाले हैं,
छोटे पर हिम्मत वाले हैं।
हम जोश से क्या-क्या कर जाएँ?
दुनिया में आगे बढ़ जाएँ।

जग में रौशन नाम करेंगे,
नहीं कभी आराम करेंगे।
ऊँचा भारत का नाम करेंगे,
होकर बड़े तो काम करेंगे॥

(तीसरी - अ)

शिक्षक

'शिक्षक' हैं शिक्षा का सागर,
शिक्षक बाँटे ज्ञान बराबर।
शिक्षक मंदिर की है पूजा,
माता-पिता का नाम है दूजा।

पौधे को जैसे हो पानी,
शिक्षक की है वही कहानी।
शिक्षक देखे जात न पात,
शिक्षक करें न पक्षपात।

निर्धन हो या हो धनवान,
शिक्षा सौर है एक समान।
शिक्षक माझी, नाव किनारा,
शिक्षक डूबती किश्ती का सहारा।

शिक्षक का है सदा ही कहना,
परिश्रम, लगन है सच्चा गहना।

जब धरती ना रहे तो...

जब ब्रह्मांड में कुछ ना हो,
धरती भी ना रहे तो?

ना होंगे पशु, ना पक्षी,
तब राज करेंगे राक्षसी।

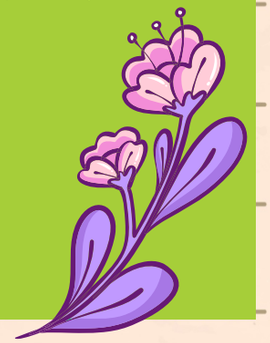

ना कोई पेड़, न कोई पौंधा,
जीवन रहेगा सोंधा-सोंधा।

तब ना रहेंगे मानव,
राज करेंगे सिर्फ़ और सिर्फ़ दानव।

ना बचेगा कोई भी देश,
हर जगह रहेगा युद्ध और क्लेश।

आओ अपनी प्रकृति को बचाएँ,
मिलकर हम सब अच्छे नागरिक कहलाए।

निशांत सिंह
(पाँचवी - ड)

बूझो तो जाने

1.काला घोड़ा सफ़ेद सवारी
एक उतरा तो दूसरे की बारी ?
उत्तर - तवा और रोटी

2.ना मैं पक्षी, ना मैं पतंग
फिर भी उड़ता हूँ दिन भर संग
उत्तर: बादल

रिद्धिमा
(पाँचवी - ब)

पेड़-पेड़

बड़े बड़े ये पेड़ हरे,
हरदम रहते लदे-फदे,

बारिश हो तो ख़ूब लहराते,
तेज़ धूप में भी नही मुरझाते।

हमे हरदम छाया ये देते,
खट्टे-मीठे फल खिलाते।

कभी ना झुको, कभी न गिरो,
हर मुश्किल का सामना करो।

हर मौसम में खड़े ये रहते,
हमें भी ये यही सिखाते।

सानवी मंगला
(पाँचवी - स)

माँ की ममता

माँ वह अमूल्य एहसास है,
कभी डाँटकर सुधारे,
कभी गले लगाकर
सारा दुख भुलाए,

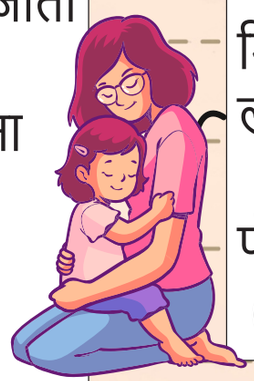

हमारी आँखों के आँसू
अपनी आँखों में समेट लेती,

हमारी खुशियों पर खुद को समर्पित कर देती।
अपने स्नेह भरे हाथों से,
हमारी तकलीफ दूर कर देती,

दुनिया की जलती धूप में,
माँ की ओढ़नी छांव बन जाती है।

चाहे कितनी भी थकी हो,
हमारी हँसी देखकर सारी थकान भूल जाती है।
माँ एहसास है, जिसे शब्दों में पिरोना कठिन है।

अविका
(छठी- ब)

प्यारा-प्यारा मित्र

मित्र हमारा सबसे प्यारा,
लगता है हमें सबसे न्यारा।

मुसीबत में वह साथ हमारे,
मित्र हमारे प्यारे-प्यारे।

मित्र के दिल में प्यार ही प्यार है,
सच्चे मित्र से खुशहाल संसार है।

तुम्हारी दोस्ती है मेरे लिए अनमोल,
तुम्हारे बिना नहीं है जीवन का मोल

तृप्त हृदय को, सरस स्नेह से,
जो सहलावे, मित्र वही है।

सूखे मन को, सराबोर कर,
जो नहलावे मित्र वही है।

मित्र हमारा सबसे प्यारा,
लगता है हमें सबसे न्यारा ।

पोषिका झा
(छठी - ब)

आओ कदम बढ़ाएँ हम

दुख भगवान ने सबको बाँटे हैं,
धर्म तो इनमें नहीं बाँटे हैं।
ख़ुद ही में प्रेम की दीवारें तोड़कर,
इन्होने अपने धर्म को बाँटा है।
हिंदू, मुस्लिम, सिख, ईसाई,
चार धर्मों ने बढ़ाया सम्मान।
लोगों के दिल में हो गया श्रेष्ठ होने का अभिमान,
जात-पात के नाम पर बाँटा अब हिंदू-मुसलमान।
कहीं पर दंगा, कहीं पर झगड़े,
सारे भाईचारे के रिश्ते बिगड़े।
पुराणों की भी मर्यादा टूटी,
धर्म के नाम पर हर बार मुट्ठी छूटी।
बदले सारे के सारे,
आज भी जब पीछे देखे, याद आए वो सारे,
जिन्होंने देश के लिए अपने प्राणों की आहुति दी।
आज पता नहीं क्यों उन वीरों के अभिमानों पर कलंक लगाते हम?
अगर हो ताकत, अगर हो दम,
तो बढ़ेंगे साथ-साथ, सबके कदम।
आओ कदम बढ़ाएँ हम,
भुजा हुआ दीपक फिर से जलाएँ हम।

सारा मित्तल
(छठी - स)

सवेरे की किरणें

सवेरे की किरणें जगमगाती हैं,
नई उम्मीदें दिल में जगाती हैं।
पक्षी चहचहाते हवा बहती है,

प्रकृति की सुंदरता सबको दिखाती है।
हर बूँद में एक नई कहानी है,

धरती की हर धड़कन में रूहानी है।
हर फूल में जीवन की रचना बसी है,
सूरज की रौशनी में हर खुशी पाई है।

चरणों में बसी है सुख-शांति की बात,
जन्मों से चलती आ रही है ये सौम्य बात।

हर सुबह हमें नई दिशा दिखाती है,
यह सवेरे की किरण हमें जीने की राह दिखाती है।

सृष्टि
(छठी - स)

दूर गगन में

सुबह सवेरे आसमान में
चीं-चीं करती चिड़िया आई।
चिड़ियों का संगीत सुनकर
मम्मी ने फिर आवाज़ लगाई।
छोटी-छोटी ,प्यारी-प्यारी
चोंच से वो गीत गाती,
छोड़ अपने घोंसले को
दूर गगन में पंख फैलाती।

बैठकर खिड़की पर मैं,
देख कर उन्हें सोचती,
काश इनके जैसे ही
मैं भी थोड़ा उड़ लेती।

दूर गगन में पंख फैलाकर,
झरनों के ऊपर मंडराकर,
सारी दुनिया देख लूँ,
आज मैं भी उड़ लूँ।

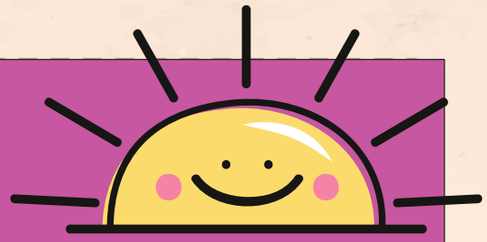

आद्या वर्मा
(सातवीं -ड)

नारी सशक्तिकरण

सृष्टि नहीं नारी बिना, यही जगत आधार।
नारी के हर रूप की, महिमा बड़ी अपार।।
नारी प्रीत में राधा बने, गृहस्थी में जानकी।
काली बनके शीश काटे, जब बात हो सम्मान की।।
नारी की जिस शक्ति का शायद तुमको आभास नहीं।
नारी है तो सब कुछ है, शायद तुमको विश्वास नहीं।।
नारी शक्ति के नारों ने, सबको फिर बतलाया है,
आज मेरे मन ने फिर, वही सवाल उठाया है।।
वेदों और पुराणों में जिसकी महिमा को गाया है,
तुम ही कहो ये अश्रु तुम्हारे किसको क्या समझाओगे?
सुनो द्रौपदी! शस्त्र उठा लो, अब गोविंद न आएंगे।।
नारी वो रत्न है जिसकी कीमत कोई न लगा पाया
कविता पढ़ी है आप सबने, जिसे 'इपशिता' ने बतलाया।।

इपशिता
(सातवीं - स)

उम्मीद की किरण

सुबह की पहली किरण के साथ, अनन्या अपने छोटे से गाँव में खड़ी थी, जहाँ जीवन संघर्षों से भरपूर था। आर्थिक तंगी, पारंपरिक सोच और सीमित संसाधनों के बावजूद, अनन्या की आँखों में सपनों की चमक थी। उसने बचपन से ही किताबों में खोकर दुनिया की अनगिनत कहानियाँ और कविताएँ पढ़ीं थीं, जिससे उसके मन में साहित्य के प्रति एक अटूट प्रेम और उत्साह विकसित हुआ।

अनन्या के पिता एक मेहनती किसान थे, जिन्होंने हमेशा अपनी बेटी को शिक्षा और आत्मविश्वास की अहमियत समझाई। हालांकि गाँव में साहित्यिक गतिविधियाँ बहुत कम थीं, फिर भी अनन्या ने पुस्तकालय की पुरानी, मद्धम रोशनी में छपी किताबों से अपनी कल्पनाओं को पंख दिए। उसने सोचा कि क्यों न अपनी रचनात्मकता को दुनिया के सामने लाया जाए, जिससे न केवल उसकी पहचान बने, बल्कि उसके गाँव में भी एक नई सोच की शुरुआत हो।

एक दिन, गाँव में एक प्रतिष्ठित साहित्यिक समारोह का आयोजन हुआ, जहाँ स्थानीय लेखकों और कवियों का जमावड़ा लगा था। अनन्या ने हिम्मत जुटाकर अपनी लिखी कहानियाँ और कविताएँ एक प्रमुख पत्रिका को भेजने का निर्णय लिया। लेकिन जब उसके लेख संपादक के हाथ लगे, तो उसे सुधार के कई सुझाव मिले। संपादक ने कहा, "आपकी भावनाएँ बहुत गहरी हैं, पर आपके शब्दों में वह स्पष्टता और सहजता नहीं है जो पाठकों को झकझोर सके।"

इस प्रतिक्रिया से अनन्या निराश नहीं हुई।कई महीनों के प्रयास के बाद, अनन्या ने अपने लेखों में सुधार करके उन्हें फिर से प्रस्तुत किया। इस बार उसके शब्दों में एक नई चमक थी—ऐसी भावनाएँ जो पाठकों के दिलों को छू जाती थीं। संपादक ने उसकी मेहनत की सराहना की और अनन्या की रचनाओं को पत्रिका में प्रकाशित कर दिया। अनन्या की सफलता ने न केवल उसे व्यक्तिगत पहचान दिलाई, बल्कि उसके गाँव में भी साहित्यिक जागरूकता की नई लहर दौड़ा दी।

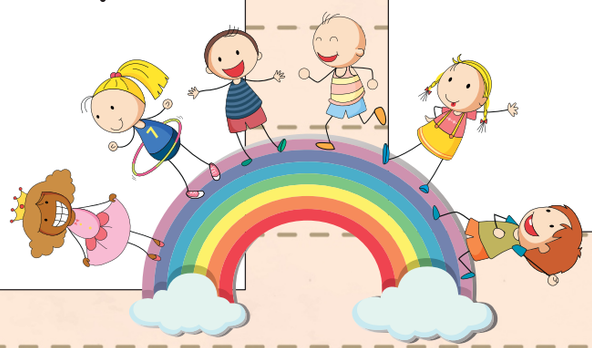

जीविका
(सातवीं - स)

परिंदे

ये आसमां छिन गया तो क्या ?
नया ढूँढ़ लेगे,हम वो परिंदे नहीं जो उड़ना छोड़ देंगे।
मत पूछ, हौंसलें हमारे आज कितने बुलंद हैं?
एक नई शुरूआत, नया आरंभ तय है...
माना अभी हम निःशब्द है !
ये पारावर छूट गया तो क्या ?
नया सागर ढूंढ लेंगे,
हम वो कश्तियाँ नहीं जो तैरना छोड़ देंगे !!
कदम चलते रहेंगे...
जब तक श्वास है,परिस्थिति से परे स्वयं पर हमें विश्वास है,
एक रास्ता मिला नहीं तो क्या नई राहें ढूँढ़ लेंगे,
हम वो मुसाफिर नहीं जो चलना छोड़ देंगे !!

अंशिका
(आठवीं -अ)

गरीब की मेहनत

गरीब के हाथ,मेहनत से भरे हैं,
पसीने से गीले,परिश्रम से सूखे हैं|

इन के हाथों से निकलती है रोटी और सब्जी,
इन के हाथों की मेहनत से ही परिवार का है पेट भरता|

इनके हाथों में है दर्द, इनके हाथों में है पीड़ा,
पर इन के हाथों की मेहनत से ही जीवन का है संघर्ष चलता|

इन मेहनती हाथों को सलाम,
इन गरीबों की मेहनत को पहचान|

(आठवीं - ब)

शिक्षक

माताएँ देती हैं नवजीवन, पिता सुरक्षा करते हैं।
लेकिन सच्ची मानवता, शिक्षक जीवन में भरते हैं।।
सत्य न्याय के पथ पर चलना शिक्षक हमें बताते हैं।
जीवन संघर्षों से लड़ना शिक्षक हमें सिखाते हैं।।
ज्ञान दीप की ज्योति जलाकर मन आलोकित करते हैं।
शिक्षक ईश्वर से बढ़ कर हैं यह कबीर जी कहते हैं।।

क्योंकि शिक्षक ही भक्तों को ईश्वर तक पहुँचाते हैं।
जीवन में कुछ पाना है तो शिक्षक का सम्मान करो।।
शीश झुकाकर श्रद्धा से बच्चों उन्हें प्रणाम करो।।

प्रिंस
(आठवीं -सी)

वक्त की कीमत

वक्त है कीमती, हर पल में छुपा है राज,
यह न रुके, न थमे, बस चलता जाए भाग।
जो इसे समझे, वही सच्चा जीता,
जो इसे खो दे, वही पछताता है बीता।
कल की चिंता, न हो आज की फिक्र,
हर पल को जी लो, बिना किसी झंझट।
जो बीत गया, उसे बदल नहीं सकते,
पर आगे का हर पल, नयी राह दिखा सकता है।
वक्त को समझो, इसे सहेजो,
क्योंकि यह कभी वापस नहीं आता है।
आज जो तुम कर रहे हो, वही कल होगा तुम्हारा,
इसलिए वक्त को मूल्य दो, यही है सच्चा सहारा।

अविशा
(नवीं -अ)

सच्चाई की राह

एक समय की बात है, एक छोटे से गाँव में एक लड़का रहता था जिसका नाम अर्जुन था। अर्जुन पढ़ाई में बहुत तेज था, लेकिन उसके घर की स्थिति ज्यादा अच्छी नहीं थी। उसके पिता एक साधारण किसान थे और माँ घर का काम संभालती थीं। अर्जुन को हमेशा यह एहसास रहता था कि उसकी कड़ी मेहनत ही उसे एक बेहतर भविष्य दे सकती है।

एक दिन, अर्जुन को अपनी स्कूल परीक्षा के परिणाम मिले। वह जानता था कि उसने मेहनत से पढ़ाई की थी, लेकिन जब उसने रिजल्ट देखा, तो उसमें उसे कुछ अंक ज्यादा मिले थे। वह जानता था कि वह अंक उसने कभी नहीं बनाए थे। अर्जुन के मन में एक हलचल सी हुई। उसके दिमाग में दो विचार आ रहे थे – एक यह कि वह चुप रहकर उन अंकों का फायदा उठा ले, और दूसरा यह कि वह सच्चाई को स्वीकार कर के अपने परिणाम को सही करवाए।

अर्जुन ने कुछ देर सोचा और फिर उसने ठान लिया कि वह सच्चाई को ही अपनाएगा। उसने स्कूल के मुख्याध्यापक से मुलाकात की और अपनी गलती बताई। मुख्याध्यापक ने अर्जुन की ईमानदारी की सराहना की और उसे यकीन दिलाया कि वह सही राह पर है।

कुछ दिनों बाद, स्कूल में एक बड़ा इवेंट हुआ जिसमें पूरे स्कूल के बच्चों को उनके मेहनत और ईमानदारी के लिए पुरस्कृत किया गया। अर्जुन को भी "ईमानदारी और परिश्रम का प्रतीक" का पुरस्कार मिला। उसके माता-पिता भी गर्व से उसकी ओर देख रहे थे। अर्जुन ने महसूस किया कि सच्चाई की राह हमेशा मुश्किल होती है, लेकिन वही उसे सच्ची खुशी और संतुष्टि देती है।

सीख:

सच्चाई की राह कठिन होती है, लेकिन यही हमें सच्ची शांति और सम्मान दिलाती है। सफलता सिर्फ परिणाम नहीं, बल्कि हमारी मेहनत और ईमानदारी से मिलती है।

गीतांजलि
(नवीं -अ)

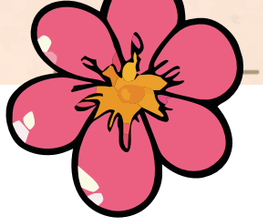

वार्षिक परीक्षा

पढ़ाई में जो मेहनत की, उसका फल अब मिलेगा,
वार्षिक परीक्षा में, अब सफलता चमकेगी।
दिन-रात की जो मेहनत, अब रंग लाएगी,
हर सवाल का जवाब, अब आसानी से आएगी।
परीक्षा का समय है, थोड़ा सा तनाव भी होगा,
लेकिन विश्वास रखो, सफलता जरूर होगा।
जो कुछ भी सीखा, उसे पूरी तरह से निभाओ,
सच्ची मेहनत से ही, अच्छे अंक पाओ।
सफलता के लिए केवल परीक्षा नहीं,
मन की शांति और मेहनत भी जरूरी है वहीं।
गहरी साँस लो, और आत्मविश्वास से भर जाओ,
अपनी कड़ी मेहनत का फल, तुम खुद पाओ।

लक्षिता
(नवीं -अ)

स्वर्ण पिंजरा

गाँव के किनारे एक विशाल पीपल का पेड़ था, जिस पर एक सुंदर बुलबुल का बसेरा था। उसकी मीठी चहचहाहट से पूरा गाँव मंत्रमुग्ध हो जाता। हर सुबह किसान, बच्चे, और बूढ़े उसकी सुरीली आवाज़ सुनकर दिन की शुरुआत करते।

एक दिन, शहर से आए एक अमीर व्यापारी ने उस बुलबुल को देखा। वह उसकी सुंदरता और मधुर आवाज़ से इतना प्रभावित हुआ कि उसने उसे पकड़ने की योजना बनाई। उसने गाँव के बच्चों को लालच दिया और कहा, "जो इस बुलबुल को पकड़कर देगा, उसे मैं सोने का सिक्का दूँगा!"

लालच में आकर एक लड़के ने बुलबुल को पकड़ने के लिए जाल बिछा दिया। मासूम बुलबुल फंस गई। व्यापारी उसे एक खूबसूरत स्वर्ण पिंजरे में बंद करके अपने महल में ले आया। वहाँ उसे सोने का कटोरा, चाँदी का झूला और तरह-तरह के दाने दिए गए, लेकिन बुलबुल की चहचहाहट बंद हो गई। वह अब गाने की बजाय उदास होकर चुपचाप बैठी रहती।

दिन बीतते गए, लेकिन बुलबुल ने कभी अपनी मधुर धुन नहीं गाई। व्यापारी परेशान हो गया। उसने उसे अच्छे से अच्छा खाना खिलाया, लेकिन कुछ असर नहीं हुआ। एक दिन, उसने बुलबुल से पूछा, "तुम्हें क्या चाहिए? तुम्हारे पास तो सब कुछ है!"बुलबुल ने धीरे से कहा, "स्वर्ण पिंजरा कितना भी सुंदर क्यों न हो, लेकिन वह एक कैदखाना ही है। मेरी खुशी उड़ने में है, स्वतंत्रता में है। मेरी आवाज़ उसी आज़ादी की पहचान थी, और वह अब खो चुकी है।"व्यापारी को अपनी गलती का अहसास हुआ। उसने तुरंत पिंजरा खोल दिया। बुलबुल फौरन उड़ गई और पीपल के पेड़ पर जाकर बैठ गई। कुछ ही पलों में उसकी मीठी चहचहाहट फिर से गूँजने लगी, और पूरा गाँव मुस्कुरा उठा।

शिक्षा:स्वतंत्रता सबसे बड़ी दौलत है। सच्ची खुशी केवल आज़ादी में ही होती है, न कि सोने-चाँदी के बंधनों में।

सनवी
(नवी -स)

त्रयाणां गुणानां वर्णनम्

संस्कृत

संस्कृतभाषायां त्रयः विशेषगुणाः सन्ति। ते लिङ्गं, वचनं, पुरुषश्च।

लिङ्गानि त्रयाणि भवन्ति -
१. पुल्लिङ्गः – यथा बालकः, शिक्षकः, सूर्यः इत्यादयः।
२. स्त्रीलिङ्गः – यथा बालिका, माता, नदी इत्यादयः।
३. नपुंसकलिङ्गः – यथा फलम्, जलम्, पुस्तकं इत्यादयः।

वचनानि त्रयाणि भवन्ति -
१. एकवचनम् – एकस्य विषये प्रयुज्यते, यथा बालकः पठति।
२. द्विवचनम् – द्वयोः विषये प्रयुज्यते, यथा बालकौ पठतः।
३. बहुवचनम् – बहूनां विषये प्रयुज्यते, यथा बालकाः पठन्ति।

पुरुषाः त्रयः भवन्ति -
१. प्रथमपुरुषः – कर्ता अन्यः अस्ति, यथा रामः गच्छति।
२. मध्यमपुरुषः – संबोधनार्थं प्रयुज्यते, यथा त्वं गच्छसि।
३. उत्तमपुरुषः – वक्ता स्वयम् कर्ता अस्ति, यथा अहं गच्छामि।

एते गुणाः संस्कृतभाषायाः व्याकरणे अतीव महत्वपूर्णाः सन्ति। तेषां ज्ञानं भाषा-अध्ययनाय आवश्यकम्।

Joyful Journeys:

Exploring Happiness and Wellness in Learning

From the Coordinators' Quill

Dear Readers,

It gives me immense pride to reflect on the academic year 2024–25—a year that truly embodied the vibrant and dynamic culture of MRG School. At MRG, learning goes far beyond textbooks. We believe in nurturing curious minds, encouraging self-expression and building confident, compassionate individuals prepared to meet the challenges of tomorrow.

This year, our students have not only excelled in board examinations but have also brought laurels to the school by representing us with distinction at district, state and national levels. These accomplishments exemplify the holistic learning environment we cultivate—one that blends academic rigor with co-curricular exploration, values and leadership.

MRG School continues to be a space where innovation, discipline and creativity thrive across all areas of learning. Each page of this magazine is a reminder of our collective efforts, achievements and the spirit of learning that defines MRG. As we look ahead, we remain committed to nurturing potential and continuing our pursuit of excellence with renewed energy and purpose.

Warm Regards
Ms. Ruchi Gupta
Academic Coordinator
(Senior Wing)

Dear Readers,

As we turn the pages of this year's school magazine, we celebrate more than just milestones—we honour the everyday moments of curiosity, growth and discovery that define learning at MRG.

Primary education at MRG is where the foundation is laid—not only for academics, but for values, creativity and a love for learning. Each day, I have the privilege of witnessing our young learners ask bold questions, explore new ideas and express themselves with joy and confidence. Under the National Education Policy, learning has truly become more child-centric and meaningful. It's no longer confined to textbooks—it now lives in conversations, hands-on activities and real-world connections.

What sets MRG apart is our culture of care and curiosity. Here, every child is seen, every voice is valued and every small success is celebrated. We don't just teach; we nurture thinkers, problem-solvers and compassionate individuals who are ready to embrace the world with open minds and kind hearts.

As you explore this magazine, may you see not just accomplishments, but the spirit of learning that makes MRG a truly special place for every child's journey.

Warm Regards
Ms. Pallavi Jain
Academic Coordinator
(Primary Wing & Middle School)

Dear Readers,

At MRG School, we believe that the elementary years are not just the beginning of formal education—they are the heart of a child's lifelong journey of learning. These early experiences shape how children see themselves, how they connect with others, and how they engage with the world. That's why, at MRG, we place immense care and thought into creating a nurturing environment where every child feels valued, heard and inspired.

Our classrooms are joyful, welcoming spaces where our young learners are constantly growing—in knowledge, confidence and kindness. We believe that true learning is deeply personal, and every child learns best when they feel safe, loved, and free to be themselves.

In the 2024–25 session, we introduced the Holistic Progress Card to reflect this very philosophy. It goes beyond marks to celebrate each child's growth across intellectual, emotional, social and physical areas. It's a reflection of their small but significant steps—the courage to try, the joy of discovery, the kindness they show and the curiosity they carry.

With your support, we continue to build a strong foundation where our children don't just learn—they thrive.

Warm Regards
Ms. Jyoti Sehgal
Academic Coordinator
(Elementary Wing)

Learning Redefined: Teachers' Voices @ MRG

At MRG, our progressive approach to education ignites a passion for learning that transcends the traditional classroom walls. Our educational philosophy is rooted in igniting curiosity, fueling creativity and cultivating an insatiable appetite for discovery. As a school that values holistic growth, we meticulously craft experiences that nurture students' innate curiosity, creativity and potential.

Our diverse range of activities – from intellectually stimulating excursions that bridge theory and reality, fostering hands-on learning and cultural exchange to participation in prestigious awards like Utthan – fosters a culture of excellence, resilience and growth. Through immersive, week-long celebrations of subjects, we kindle a love for learning, while expert-led workshops and interactive sessions empower students to harness their voice and vision.

Our dedicated SEL experts provide personalized guidance, equipping students with the emotional intelligence and social skills necessary to thrive in an ever-evolving world. This multifaceted approach inspires students to become curious, confident and compassionate individuals equipped with the skills, knowledge and values necessary to succeed.

By embracing a culture that celebrates creativity, community engagement and individual growth, MRG inspires students to become empathetic leaders, innovative thinkers and compassionate global citizens.

Ms. Bhavika Kapoor
(TGT English)

हिंदी पढ़ाने की शैली जीवंत, रोचक और अनुभवों पर आधारित होती है। एम.आर.जी. विद्यालय में हम विद्यार्थियों के बहुआयामी विकास के प्रति प्रतिबद्ध हैं —आत्मसाक्षात्कार एवं व्यक्तित्व के समग्र विकास पर विशेष ध्यान देते हैं। हमारा विश्वास है कि शिक्षा केवल कक्षा की सीमाओं तक सीमित नहीं है, बल्कि जीवन के प्रत्येक क्षेत्र में व्याप्त है।

भाषा का महत्व: हिंदी को केवल अभिव्यक्ति का माध्यम नहीं, बल्कि संस्कृति, संस्कार और व्यक्तित्व की पहचान माना जाता है।

जीवंत और अनुभव आधारित शिक्षण: कक्षा में कहानी, संवाद, चर्चा और दृश्य-श्रव्य माध्यमों का प्रयोग पाठ को रोचक और प्रभावशाली बनाया जाता है।

भाषा कौशल का विकास: लेखन, वाचन, संवाद, वाद-विवाद और प्रस्तुति गतिविधियों के माध्यम से छात्रों में आत्मविश्वास व अभिव्यक्ति क्षमता का विस्तार किया जाता है।

रचनात्मक व्याकरण शिक्षण: व्याकरण को पारंपरिक तरीके से न पढ़ाकर खेल, समूह कार्य, पहेलियाँ और प्रोजेक्ट आधारित गतिविधियों द्वारा सिखाया जाता है।

साहित्यिक समावेशन: कविताएँ, कहानियाँ, नाटक और लेख विद्यार्थियों में साहित्यिक रुचि और संवेदना का विकास करते हैं।

सांस्कृतिक कार्यक्रमों से जुड़ाव: हिंदी दिवस, कहानी वाचन, भाषण प्रतियोगिता, नाट्य प्रस्तुति आदि द्वारा भाषा के प्रति प्रेम और सम्मान को बढ़ावा दिया जाता है।

तकनीक का उपयोग: शिक्षक TLM, स्मार्ट क्लास, प्रोजेक्टर, डिजिटल संसाधनों और ऑनलाइन शिक्षण मंचों का प्रयोग शिक्षण को आधुनिक और प्रभावशाली बनाता है।

शिक्षकों का सतत विकास: नियमित प्रशिक्षण व कार्यशालाएँ शिक्षकों को नवीनतम शिक्षण विधियों से जोड़ती हैं।

समग्र विकास पर बल: भाषा शिक्षण के साथ सामाजिक, बौद्धिक और नैतिक विकास भी सुनिश्चित किया जाता है।

हम शिक्षा को यथार्थ जीवन से जोड़ने हेतु निरंतर प्रयत्नशील हैं। शैक्षणिक भ्रमण, विशेषज्ञ व्याख्यान एवं सामाजिक उत्तरदायित्व की गतिविधियाँ शिक्षण को सार्थक व जीवनोपयोगी बनाती हैं। विद्यालय में प्रत्येक उपलब्धि—चाहे वह अकादमिक श्रेष्ठता हो या मानवीय संवेदनाएँ—का अभिनंदन कर हम विद्यार्थियों के आत्मबल व प्रेरणा को सशक्त करते हैं।

दीपा शर्मा
(दी अध्यापिका)

At MRG School, we are deeply committed to creating an inclusive learning environment where every student is empowered to reach their full potential. Our Boost Base program is a key initiative that supports this vision by catering specifically to the needs of Children With Special Needs (CWSN). This thoughtfully designed resource room offers a nurturing space where students receive personalized attention through therapeutic sessions, sensory integration activities and life skills training.

Boost Base works in harmony with the academic curriculum, ensuring that learning is both accessible and engaging for every child. Our team of educators and special needs professionals collaborate to adapt lesson plans, assessments and teaching strategies to suit individual learning styles and needs. This approach not only supports academic growth but also helps students develop confidence, independence and essential social skills.

At MRG, inclusivity extends beyond the classroom. CWSN students are encouraged to actively participate in co-curricular activities, school events and daily interactions with peers. This inclusive culture fosters empathy, understanding and mutual respect among all students.

The impact of Boost Base has been significant, with visible improvements in student engagement, academic outcomes and personal development. Through this initiative, MRG School reaffirms its commitment to providing equal opportunities and a supportive environment for every learner.

Ms. Deept Bisht
(Special Educator)

At MRG School, education goes beyond academics to nurture well-rounded individuals through experiential learning, emotional well-being and student empowerment. We believe students learn most effectively through hands-on experiences, which is why our teaching includes role plays, simulations, experiments, and real-life case studies. Whether conducting surveys in psychology, working in science labs, or studying business models in commerce, students engage actively with concepts. Field visits to museums, ecological parks, industries and career expos further enhance their understanding, encouraging curiosity, critical thinking and real-world problem-solving.

Co-curricular activities are equally integral to our approach. Initiatives such as plantation drives, visits to old age homes and festive outreach programs help students develop empathy, social awareness and leadership skills. These experiences foster a strong sense of community and civic responsibility.

To support emotional health, MRG integrates mindfulness practices into daily school life. Activities like mindful breathing, mirror talk, gratitude circles and grounding exercises help students build inner balance, manage stress and develop resilience.

At MRG, education is a journey of the head, heart and hands—where every student is prepared not just for exams, but for life.

Ms. Garima Dahiya
(PGT Psychology & School Counsellor)

At MRG School, discipline is not about control—it's about care. It's the quiet rhythm that gives our children the confidence to grow, the courage to lead and the heart to serve. In every corner of the school, from morning greetings to end-of-day reflections, discipline is gently woven into the fabric of daily life.

Discipline at MRG is not just a set of rules; it's the foundation for the first lessons in responsibility, respect and resilience. It's evident in the way our students wear their uniforms with pride, walk quietly in line, or wait patiently for their turn. These small, everyday habits plant the seeds of something much greater—self-respect, empathy and inner strength that will guide them throughout life.

We believe children thrive when they know what's expected of them and are supported with kindness and understanding. Structured routines, clear boundaries and consistent guidance create a safe and nurturing environment where every child feels seen, valued and empowered to make positive choices.

At MRG, discipline is not enforced—it's embraced, because our children understand it helps them grow into their best selves. It fosters not only academic success but also emotional maturity and social responsibility. In that quiet strength, we see future leaders being shaped—not just with knowledge, but with character, compassion and the resilience to face the world confidently.

Ms. Kanika Sharma
(Discipline Incharge)

एम.आर.जी. विद्यालय में हिंदी शिक्षण मात्र पाठ्यक्रम की पूर्ति नहीं बल्कि चिंतन,संवेदनशीलता और अभिव्यक्ति को निखारने की एक सतत प्रक्रिया है। यहाँ भाषा शिक्षण को जीवंत,रचनात्मक और अनुभवजन्य रूप में अपनाया जाता है। हमारा विश्वास है कि शिक्षा केवल कक्षा की सीमाओं तक सीमित नहीं है, बल्कि जीवन के प्रत्येक क्षेत्र में व्याप्त है।

अनुभवात्मक शिक्षण:

हिंदी विषय में हमारे द्वारा भूमिका-निर्वाह,संवाद लेखन,समाचार वाचन और कविता पाठ जैसी गतिविधियाँ कराई गईं,जिससे छात्रों ने न केवल भाषा को समझा बल्कि उसमें सक्रिय भागीदारी की।'नाट्य मंचन प्रतियोगिता' के अंतर्गत छात्रों द्वारा जीवन-प्रेरित दृश्य मंचित किए गए।

रचनात्मक व्याकरण शिक्षण:

हमारे द्वारा व्याकरण को रुचिकर बनाने हेतु शब्द पिटारा, व्याकरणिक खेलों, और समूह अभ्यासों का आयोजन किया गया। संधि,उपसर्ग-प्रत्यय जैसे विषयों को छात्रों के नाम, दैनिक जीवन की घटनाओं से जोड़कर सृजनात्मक रूप दिया गया।

विषय एकीकरण:

हिंदी को अन्य विषयों से जोड़ते हुए विज्ञान में 'जल चक्र' परियोजना गणित में पहेलियाँ और सामाजिक विज्ञान में ऐतिहासिक पात्रों को पत्र लेखन के माध्यम से प्रस्तुत किया गया।

सांस्कृतिक एवं तकनीकी समावेश:

हमारे द्वारा हिंदी सप्ताह, संवाद वाचन, कविता प्रतियोगिता और साहित्यिक पोस्टर जैसी गतिविधियाँ आयोजित की गईं। हिंदी भाषा में आधुनिक तकनीकों दृश्य-श्रव्य उपकरण और ऑनलाइन प्लेटफॉर्म का उपयोग कर शिक्षण को और अधिक प्रभावशाली बनाया गया, जिससे छात्रों की रूचि बनी रहे और वह भाषा के साथ जुड़ाव का अनुभव करें। विद्यालय की जीवंत भाषा हिंदी विद्यालय में हिंदी शिक्षकों के पेशेवर विकास हेतु समय-समय पर प्रशिक्षण सत्र और कार्यशालाओं का आयोजन किया जाता है, जिनके माध्यम से उन्हें आधुनिक शिक्षण तकनीकों एवं नवाचारों से परिचित कराया जाता है। इससे शिक्षण प्रक्रिया अधिक प्रभावी और गुणवत्तापूर्ण बनती है। 'दोहा वाचन','आज का मुहावरा' तथा 'हिंदी सुविचार' जैसे निरंतर प्रयासों द्वारा हिंदी को विद्यालय की जीवंत भाषा बनाया गया।

"यदि किसी राष्ट्र को सशक्त बनाना है, तो उसकी मातृभाषा को सशक्त करना होगा।"- डॉ. ए.पी.जे. अब्दुल कलाम

हमारे विद्यालय में हिंदी शिक्षण एक रचनात्मक और संवेदनशील नागरिक गढ़ने की दिशा में सशक्त प्रयास है।

शिवानी खन्ना
(हिंदी अध्यापिका)

हमारे विद्यालय में संस्कृत शिक्षण केवल पाठ्यपुस्तकों तक सीमित नहीं है, बल्कि यह विद्यार्थियों के सर्वांगीण विकास का माध्यम बन गया है। हम शब्द रूप और धातु रूप जैसे व्याकरणिक विषयों को रचनात्मक गतिविधियों के माध्यम से सजीव बनाते हैं।
शब्द रूप और धातु रूप की रचनात्मकता:

विद्यार्थियों को अपने नामों के शब्द रूप स्वयं बनाने के लिए प्रेरित किया जाता है, जिससे वे व्याकरण के नियमों को व्यक्तिगत अनुभव से समझते हैं। धातु रूपों को याद रखने के लिए हम गीतों, लयबद्ध छंदों और खेलों का उपयोग करते हैं, जिससे सीखना आनंददायक और स्मरणीय बनता है।

अन्य विषयों के साथ एकीकरण:
हम संस्कृत को अन्य विषयों के साथ जोड़कर पढ़ाते हैं। गणित में वैदिक गणित की विधियों का परिचय दिया जाता है और कला में संस्कृत नाटकों और कविताओं का मंचन किया जाता है। इससे विद्यार्थियों में विषयों के प्रति रुचि बढ़ती है और वे विभिन्न विषयों के बीच संबंध स्थापित कर पाते हैं।

सांस्कृतिक गतिविधियाँ और तकनीकी समावेश:
विद्यालय में संस्कृत दिवस, श्लोक प्रतियोगिताएँ, और नाट्य प्रस्तुतियाँ आयोजित की जाती हैं, जिससे विद्यार्थियों को भाषा के सांस्कृतिक पक्ष का अनुभव होता है। साथ ही, हम डिजिटल उपकरणों और ऑनलाइन संसाधनों का उपयोग करके संस्कृत शिक्षण को आधुनिक और सुलभ बनाते हैं।

विद्यालय की संस्कृति में संस्कृत का स्थान:
हमारा विद्यालय संस्कृत को केवल एक विषय नहीं, बल्कि एक जीवनशैली के रूप में अपनाता है। प्रार्थना, अभिवादन, और दैनिक संवाद में संस्कृत का प्रयोग विद्यार्थियों में भाषा के प्रति आत्मीयता और गर्व की भावना उत्पन्न करता है।

यथा चित्तं तथा वाचः। यथा वाचस्तथा क्रियाः। संस्कृतवाणी शुद्धचित्तस्य प्रतीकं।
निस्संदेह, हमारे विद्यालय में संस्कृत शिक्षण केवल कक्षा तक सीमित नहीं रहता, बल्कि यह विद्यार्थियों के व्यक्तित्व निर्माण, चिंतन क्षमता और सांस्कृतिक बोध को समृद्ध करने का एक प्रभावी माध्यम बनकर उभरता है।

नवीन मिश्रा
(संस्कृत अध्यापक)

At MRG School, education is not just about lessons and exams—it's about shaping hearts and minds for life. This belief takes a beautifully personal form in French Classrooms, where learning a new language becomes a journey of discovery, confidence and connection

For our students, French is more than words on a page. It's the excitement of greeting a friend with "Bonjour!", the pride in performing a role play and the joy of singing a French song with classmates. It's about stepping into another culture, understanding new perspectives and learning to see the world with empathy and curiosity.

Each child is encouraged to speak, express and make mistakes—because that's how real learning happens. The classroom is filled with laughter, encouragement,m and moments of quiet achievement.

French Day celebrations, storytelling and creative assignments bring language alive in ways that stay with students long after the class ends. They don't just learn how to speak French—they learn how to be bold, how to connect and how to appreciate the beauty of diversity.

At MRG, the French classroom is a place where language becomes love—for learning, for culture and for the limitless possibilities of the world.

Ms. Radhika Pahwa
(TGT French)

At MRG School, assessments are thoughtfully designed as tools for growth, not just grading. We believe that examinations should measure more than academic skills — they should inspire self-reflection, creativity and real-world problem-solving. Rooted in our holistic educational philosophy, every assessment at MRG School becomes an opportunity for students to better understand themselves and their learning journey.

Unlike traditional systems that rely heavily on rote memorisation, MRG School's assessment framework prioritises comprehension, application, creativity and analytical thinking. Our unique examination marking scheme is built to prepare students for life's unpredictable challenges, fostering intellectual curiosity and resilience along the way.

In adherence with CBSE guidelines, MRG School has developed a balanced system that blends summative and formative assessments with ease. Continuous progress is monitored through interactive quizzes, reflective writing, group projects and discussions, ensuring students receive regular, personalised feedback.

This innovative model at MRG School not only nurtures academic proficiency but also helps students develop essential life skills such as critical thinking, collaboration, effective communication and self-regulation. By transforming assessments into engaging and purposeful experiences, MRG School equips its learners to face challenges both inside and outside the classroom with confidence and clarity.

Ms. Sanjana Bhalla
(Examination Head)

At MRG School, learning is much more than just lessons—it's a journey that shapes the whole person. History and civics come alive here through activities like mock parliaments, heritage walks and eco-audits that invite students to step into real-world roles. These experiences don't just teach facts; they awaken empathy, responsibility and a deeper connection to the world around them.

The Inter-House competitions at MRG are more than just contests—they are moments where students discover their strengths and build lasting friendships. Whether debating current issues, creating art or joining environmental drives, each event helps young hearts and minds grow with courage, teamwork and integrity.

Theater at MRG is another place where students find their voice. Through skits, mime and storytelling, they express feelings, face social challenges and build confidence in ways that touch their hearts and minds.

MRG nurtures not just learners but dreamers, leaders and change makers. Every child is encouraged to think deeply, question fearlessly, create boldly and work together. This is a place where education becomes a powerful, personal journey—a foundation for life's many adventures ahead.

Ms. Latika Sharma
(TGT Social Science)

At MRG School, science isn't confined to the pages of a textbook — it's a lens through which our students view and understand the world. We believe that meaningful learning happens when curiosity meets real-world experiences, and it's this philosophy that shapes our unique approach to science education.

Whether it's questioning why ice melts faster on metal or observing bread rise in the kitchen, our students are encouraged to be inquisitive, constantly exploring the "why" behind everyday phenomena. These simple, seemingly ordinary moments spark curiosity, leading to discussions, debates and hands-on experiments that transform theory into lived experience.

Our classrooms extend beyond four walls. Through activities like nature walks, kitchen experiments, weather tracking, capillary action demonstrations and gardening, students actively engage with science in its natural habitat. These immersive experiences not only develop scientific thinking but also foster creativity, collaboration and problem-solving skills.

Initiatives like our annual "Science in Action" week further cement this philosophy, as students investigate real-world challenges, demonstrating how science is both practical and exciting. From eco-clubs to innovation hubs and storytelling sessions, science is seamlessly integrated into every facet of student life.

At MRG School, we aim to nurture explorers, inventors and future changemakers. Here, education doesn't stop at the classroom door — it begins with curiosity and extends to every corner of the world around us.

Ms. Suman Singh
(PRT Science)

At MRG School, elementary education is a joyful journey where every child is seen, heard and celebrated. Learning here goes far beyond textbooks—it happens in the garden while counting leaves, in the classroom while building with blocks, and on the playground while playing team games. We believe that young children learn best when they are actively involved, curious and excited to explore the world around them.

Our classrooms are vibrant spaces where real-life connections are made every day. Students learn to measure using water, identify shapes around the school and build vocabulary through songs and stories. Whether it's a science experiment, a nature walk, or a role-play activity, every experience is crafted to nurture creativity, confidence and collaboration.

As facilitators at MRG we act as gentle guides, helping students discover knowledge through hands-on activities and interactive learning. These early experiences build not only academic foundations but also essential life skills like empathy, teamwork, and resilience.

At MRG, we believe that learning doesn't end when the bell rings. It continues in every conversation, every drawing, every shared laugh. By creating a nurturing environment, we ensure that our youngest learners grow into happy, confident and curious individuals—ready to thrive in school and beyond.

Ms. Surabhi Arora
(PRT)

At MRG School, we believe that true learning extends beyond textbooks and classrooms. Our educational philosophy embraces holistic development, ensuring students grow not just academically but also emotionally, physically and socially. Central to this vision is our integrated sports curriculum, thoughtfully designed to nurture physical fitness, mental wellbeing and essential life skills.

Sports at MRG School aren't just extracurricular activities — they are an essential part of our learning journey. The Active Learning Program ensures every student participates in regular, organized physical activity, with dedicated sports lessons conducted by professional coaches. Our students train in a wide range of disciplines including Football, Cricket, Taekwondo, Badminton, Basketball, Skating, Table Tennis, Chess, and Swimming. Each session emphasizes not just skill development but also values like discipline, teamwork and sportsmanship.

To foster a spirit of healthy competition, students actively take part in inter-house tournaments, friendly matches and inter-school championships. These events provide invaluable exposure, teaching students how to perform under pressure, handle victories gracefully and learn from setbacks.

Innovation is also woven into our sports curriculum through technology-driven tools like fitness tracking, video analysis and online coaching. These ensure that each student's progress is monitored and guided effectively.

At MRG School, sports are more than games — they are a way to build confident, balanced and resilient individuals ready to thrive in every aspect of life.

Mr. Kunal Anand
(PGT Physical Education)

At MRG School, technology is not just integrated into learning—it is woven into the very fabric of how we teach, inspire and empower. Our classrooms come alive with smart boards, tablets and interactive apps that make even the most complex concepts simple and engaging.

From the early years, students at MRG are introduced to coding, robotics and STEAM-based projects that encourage hands-on exploration and creative thinking. Learning becomes deeply personal, supported by digital platforms like Padlet, Jamboard and Kahoot that adapt to diverse learning styles. Whether it's a child building their first robot or debugging a simple code, every achievement is celebrated.

Our teachers are passionate lifelong learners who stay at the forefront of digital teaching practices through continuous training and development. With small class sizes, they offer personalized guidance, helping each student discover their own path.

Technology at MRG goes beyond academics—it nurtures leadership, collaboration and resilience. Students actively participate in coding clubs, tech competitions and real-world problem-solving projects, gaining confidence in their abilities.
Together, we create a nurturing, future-ready environment where children don't just learn about technology—they grow into innovators ready to shape the world.

Ms. Khushboo Gupta

In Their Words:
Parents Speak

We are truly grateful for the warm, engaging, and supportive environment created by the HRT in Class 1. Under her guidance, my child grew remarkably—both academically and personally. She looked forward to school every day and often spoke about how much she enjoyed the activities and the time spent in class. The encouragement at school helped her become more confident, curious and creative in her thinking. Thank you MRG, for nurturing her growth and making learning such a joyful and enriching experience.

Mother of Shanaya Sharma (J-D)

Since joining MRG School, I have watched my child grow beautifully—not just in academics, but socially, in sports and personally too. The teachers' dedication and passion have made a real difference, always encouraging and supporting her. As a mom, I worried about healthy eating, but thanks to the school's nutritious meals, she now enjoys eating vegetables! I am truly thankful to MRG for creating such a caring environment that nurtures my child's overall development.

Mother of Anaisha Aggarwal (J-B)

I am delighted to share my experience with MRG School, which has played a key role in my child's overall development and academic growth. Over the years, his teachers have genuinely believed in him, helping him build the confidence to represent the school in various competitions. Their constant support and encouragement have sparked in him a genuine eagerness to learn and improve. I am truly grateful to MRG for providing such a nurturing and empowering environment.

Mother of Yukt Garg (J-D)

I believe, MRG School has been a wonderful choice for my child. The classroom atmosphere is warm and positive, making learning an enjoyable experience. I am especially impressed by how multimedia tools are used to make lessons more engaging. The teachers are incredibly passionate—they have gone above and beyond to support my child's academic and personal growth. Their dedication has not gone unnoticed, and I truly feel grateful to have chosen MRG for my child's education.

Mother of Evelyn Goel (JJ-B))

Our experience with MRG School has been truly rewarding. We've seen remarkable growth in our child's confidence, curiosity and communication skills. The caring teachers and vibrant learning environment make every day exciting. One memorable moment was watching our child perform on stage for the first time - it was heartwarming and made us so proud. Thank you MRG, for fostering our child with such dedication!

Mother of Abeer Grover (JV- D)

My experience with MRG has been overwhelmingly positive thus far. Japmin's teachers have played a pivotal role in transforming her as an individual. The small responsibilities that her teachers assign her are gradually developing her sense of responsibility. I would like to extend my sincere appreciation to the Principal, Ms. Anshu Mital who has demonstrated exceptional cooperation and a willingness to meet with parents and address their concerns. It is reassuring to know that we can approach the head of the institution and feel heard. In a nutshell, our journey with MRG has indeed been enriching and fulfilling.

Mother of Japmin Kaur (JV-D)

Enrolling my child at MRG has been a truly rewarding decision. He started his journey with hesitant tears, but was soon embraced by the school's warmth and care. He now is eager to learn and grow each day. The Principal, Academic Coordinator and teachers pour their heart into nurturing every aspect of his development-academic, emotional, physical and creative. MRG's vibrant, holistic approach has not only shaped his learning but also his confidence and joy.

Mother of Samar Chhabra (V-A)

MRG School has been a wonderful part of our journey since my daughter started in Nursery. I have seen her grow into a confident, curious and well-rounded individual—all thanks to the school's caring and dedicated teachers. They truly bring out the best in every child. What I love most is the balance between academics and a variety of activities that build real-life skills. As a parent, I could not have asked for a better environment for my child.

Mother of Sanvee Mangla (V-C)

My son has been at MRG for the past three years, and our experience has been exceptional. The teachers here are dedicated, supportive and celebrate every achievement with genuine enthusiasm. They keep parents informed and involved in meaningful ways. The school's strong academic program, small class sizes and leveled learning have greatly boosted my son's confidence and academic growth. We truly appreciate the nurturing environment and feel proud to be part of the MRG community.

Mother of Aarush Jain (V-D)

I am thrilled to share our experience of transitioning to MRG School a few years back. The move was smoother than I anticipated, and MRG's diverse curriculum and extracurricular activities have fostered my children's growth in ways I never imagined. The faculty's unwavering support and encouragement have been instrumental in building their confidence and nurturing their talents. MRG's emphasis on holistic development has enabled my young ones to excel both academically and in sports. Choosing MRG has truly been the best decision we have ever made for our children's education.

Mother of Savreen Manchanda (V D)

As parents, choosing the right school for our child was a crucial decision—and MRG has truly lived up to our expectations. The school's focus on academic excellence, character building and holistic development is clearly reflected in our child's growth. We've seen remarkable changes—increased confidence, better communication and a stronger sense of responsibility. With dedicated teachers, enriching activities and a caring environment, MRG is doing it all. We feel proud and grateful to be part of such a transformative school community.

Mother of Shaarav Ahuja (VII-C)

As a parent, I am truly happy with the growth I have seen in my daughter, who has been at MRG School for the past 10 years. The positive changes in her–greater confidence, independence and tech skills–have been remarkable. She loves going to school which speaks volumes about the environment.

MRG's dedicated teachers, strong curriculum and focus on values have created a wonderful learning environment for my daughter's growth. Creative activities and timely feedback have indeed enriched her learning. I am grateful to be part of a school that's shaping confident and responsible individuals.

Mother of Jinisha Kumar (IX-C)

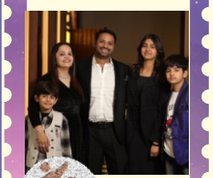

As a parent, my experience with MRG during the 2024-25 session has been truly positive. This phase came with the usual challenges at this age- mood swings, self-doubt and emotional challenges, but the school's supportive environment made all the difference. With open communication, value-based education and a strong focus on emotional well-being, my child has become more confident, self-aware and resilient. I truly appreciate MRG's role in guiding students through this sensitive phase with care and understanding.

Mother of Shaarav Taneja (IX-C)

All three of my children study at MRG School, and witnessing their growth over the years has been truly heartening- especially the remarkable boost in my younger son's communication skills and his journey toward independent learning. The school's thoughtfully designed activities make education both engaging and stress-free. The teachers are warm, approachable and always responsive to any concerns. I deeply appreciate the well-organized weekly timetables and timely updates through the MRG portal. With enriching offerings like STEM, ICT, and theatre, the school nurtures holistic development. I feel immense pride in my daughter's achievement at the national level in Taekwondo, and I'm sincerely grateful to the school for its constant support and motivation.

Mother of Livanshi (IX-C), Arnav (VI-C) & Aarav (I-D)

As proud parents, our hearts are full of gratitude for the Principal and dedicated teachers who have guided Kartik with such care and commitment. His excellent performance in the Class X Board Exams is a reflection of the nurturing environment the school has provided. More than just academics, the values of kindness, resilience and teamwork instilled in him have shaped him into a confident and compassionate young individual. Thank you for being such a beautiful part of his journey.
